

Career Advancement Academy

A Bridge to Higher Learning...

The Career Advancement Academy (CAA) at Skyline College is a series of industry specific courses and support systems that create bridges to higher-wage careers and paths to additional opportunities in higher education. This program provides hands-on classroom instruction, support from faculty and staff, & enables students to obtain college credit, technical certificates, and job readiness skills.

3300 College Drive Building 1, Room 1311 San Bruno, CA 94066

CAA Programs

Automotive

In one semester, get the necessary skills to begin a career in the automotive industry. You will also meet the prerequisites for the two-year generic and the three-year Asian import program. Key skills include:

- Tire inspection • Oil & Filter Changes • Safety Inspections • Brakes & Suspension Inspection • Cooling & Transmission Flushing • Tire Mount and Balance • Theory and Fundamentals of Automotive

Allied Health

Earn a Healthcare Certificate and start working in as little as 2 semesters! Enjoy a supportive learning environment with a dedicated counselor and prepare for a career in the following Allied Health areas:

- Medical Administrative Assistant pathways include: Medical Billing, Editing, Coding, Office Reception, Patient Navigator, or choose multiple specializations • Emergency Medical Technician (EMT) • Central Services Technology (CST)

Education Fellows

Start your teacher training and receive a certificate in Foundations in Early Childhood Education. After one semester, apply for an Assistant Teacher Child Development permit. Students will also be more than halfway to the Associate Teacher level permit on the California Department of Education.

- Gain experience at Skyline College's Child Development Center • Enjoy a supportive hands-on learning environment • Prepare for occupations in education

Legal Careers

Students in the Legal Careers pathway explore U.S law and legal systems while considering education and career options in the legal industry and law enforcement. Join the program today and develop the skills you need to excel in the legal field! Learn how to:

- Effectively conduct legal research • Proficiently perform legal writing • Critically analyze legal arguments

Biotechnology

After completion of this two semester program, students receive a Certificate of Achievement in Biotechnology and are prepared for entry-level employment in bio-manufacturing. Skyline College also offers an Associate Degree in Biotechnology for students who are looking for a clear transfer pathway to a 4-year institution.
