

Learning Communities (LCs) link together two or more related courses, giving students the opportunity to explore rewarding academic connections and earn units towards a certificate, degree or General Education requirements with a cultural, career or interest theme. LC students participate for one to three semesters and are supported by dedicated staff and faculty throughout their Skyline College experience. The total number of units in linked courses are noted below in the units column by a larger and bold font.

In consultation with your Counselor, please review the information below to determine which LC is best for you. Some LCs have more than one cohort to choose from based on your English placement and a variety of General Education and elective options. New students (to the Learning Community or to Skyline College) are welcome to enroll in the Learning Community courses below on the assigned registration date posted in WebSmart. Please contact 650-738-4427 to learn more about joining a Learning Community for the Fall 2018 semester!

Learning Communities

Learning Communities (LC) allow students to enroll in a preset group of classes with other students who share the same passions, interests, or specific field of study. Students take classes together (between 1-3 semesters) and work closely with specific faculty and counselors assigned to their learning community and invested in student success.

Download the [Learning Community brochure](#) for additional information, and make sure you explore your Learning Community options with your counselor using the Spring 2018 Learning Community Courses and Schedules handout and link to the courses on WebSchedule below:
