Allied Health Application Lottery Protocol

If more applications are received than space allows, a lottery system will be set up and a waiting list will be formed. Twenty-five applicants will be accepted each Fall semester, and fifteen more will be waitlisted **for that year only**. The following explains the lottery system:

Pool "A": Applicants who applied with a complete application in Pool B the previous year, but did not get accepted. Students must have successfully completed all prerequisites by the previous application year's deadline. * Please note that you cannot "skip" pool B. You can only go from C/D to B, or from B to A.
Pool "A" applicants will receive two entries into the lottery, +1 additional entry for each reapplication annually.

Pool "B": New applicants with a complete application and successful completion of all prerequisites with official transcript documentation by the application deadline (see below) of the current year cycle.
Pool "B" applicants will receive one entry into the lottery.

Pool "C": Application submission while prerequisite courses are in progress during the spring semester of the application cycle.
Pool "C" applicants will be considered if seats are still available after Pools A and B have been exhausted.

Pool "D": Application submission with the intent of completing prerequisite courses by the end of the upcoming summer semester.
Pool "D" applicants will be considered if seats are still available after Pools A, B and C have been exhausted.

Please note:

Any application without required transcript or recommendation documentation by the application deadline of the current cycle year will be considered *incomplete.*

Applications are only kept on file for one year. If you do not reapply the following year, the file will be shredded and a new, complete application will be required.

Application Dates:

Central Services Technician: July 1 – October 15, UNDERLINE{DEADLINE TO APPLY: OCT. 15}th –
