A Strategic Plan for the San Mateo County Community College District

DRAFT

This strategic plan serves as a guide for the San Mateo County Community College District (SMCCCD) through the year 2020.
DISTRICTWIDE STRATEGIES

The following strategies will help inform the District and Colleges in developing policies, procedures and initiatives in support of the Overarching Themes of this Strategic Plan.

- Develop a robust and comprehensive research, planning and institutional effectiveness infrastructure Districtwide to produce actionable data for use in Districtwide decision-making.
- Measure the impact of new and existing College efforts to increase success and equity for all students. Close gaps that result in inequitable outcomes.
- Capture the real education goals that students want to achieve and use these goals to determine their subsequent success.
- Continually explore and implement interventions that benefit all students, with particular emphasis on students with high potential and limited resources.
- Provide clear and distinct pathways for all students, particularly those from underserved populations, to accelerate program completion and successful transitions to work or transfer.
- Support the Colleges by providing resources for teaching and support innovations that are designed to increase student success.
- Review student placement assessment processes and incorporate multiple measures of assessing the preparedness of new students for college level work for students with the goal of decreasing time needed to achieve one’s goal.
- Engage in innovative course scheduling that provides more student options for course completion.
