"The use of technologies for audio and video recording in the classroom is allowed only with the express permission of the instructor. In cases in which permission is granted, all classroom participants will be informed. Federal law requires instructors to permit such recordings when approved as a reasonable accommodation for students with verified disabilities by the Disability Resource Center (DRC) or the 504 Coordinator. This content is restricted to personal, academic use unless permission is expressly granted in writing by the instructor and other classroom participants."
