What is Student Success Metrics?

To provide a holistic approach to the California community colleges' work on student success, the Chancellor's Office worked with a broadly representative group of practitioners to develop Student Success Metrics.

Organized around common goals such as adult education/ESL, short-term career education, and degree/transfer, the metrics capture progression along students' educational journey from recruitment to completion, transfer, and the workforce.

Student Success Metrics pinpoint critical milestones and accomplishments that align with the Vision for Success and the Student Centered Funding Formula, and integrate metrics associated with various initiatives and funding streams.

WHAT TYPES OF METRICS ARE INCLUDED?

The metrics focus on six critical points in students' journeys. The specific metrics within each point vary based on the students' goals.

1. Successful Enrollment
2. Learning Progress
3. Momentum
4. Success
5. Employment
6. Earnings

WHERE CAN I SEE THE STUDENT SUCCESS METRICS?

Student Success Metrics are summarized in a new dashboard. A beta version of the dashboard was released in November 2018. The second build, which will include updated data definitions and disaggregated results, will be released on January 31, 2019. Input will be gathered during the 2018-19 academic year to optimize the way information is displayed.
