Student Educational Plans

What is the Student Education Plan?

The Student Education Plan or SEP provides a semester-by-semester plan of the classes you will need to take to complete your educational goal. The courses on the SEP may be a combination of basic skills, general education, major, and elective courses. The SEP is created electronically in WebSMART/DegreeWorks in coordination with a Skyline College counselor.

There are two types of SEP:

Abbreviated SEP

The Abbreviated SEP includes one to two semesters of courses on the student education plan. For non-exempt, first-time new students, the abbreviated education plan will be created during the counseling appointment following orientation.

Comprehensive SEP

The Comprehensive SEP includes all remaining terms needed for a student to achieve their course of study. The comprehensive education plan must include an educational goal and course of study requirements: major, transfer, certificate, applicable prerequisites, basic skills, in addition to referrals to other support and instructional services as appropriate.

Frequent Questions:

What if I am undecided on my educational goals or major?

Can I update or change the courses on my SEP?

How does an SEP affect priority registration

How Do I Create an SEP?

Students may choose from the following options:

Option 1: Make a Counseling Appointment

Option 2: Attend an Informational SEP Workshop

Option 3: Enroll in Specific Counseling & Career Courses
