ONLINE SERVICES

What library services and resources are available to online education students at Skyline College?

Skyline College online education students can access library resources, including articles, research guides, reference sources, e-books and streaming videos, from any computer with internet access and they can get help from a librarian by phone or email. There are, however, certain resources provided by the library (such as reserve textbooks, DVDs, etc.) that can only be accessed in person at the library. Online education students are welcomed and encouraged to visit the library in person at any time.

If you do not have a library card

Students enrolled exclusively in online education courses at Skyline College may conduct research using Library databases from a home or office computer using a Peninsula Library System (PLS) library card. PLS includes all public and community college libraries in San Mateo County and any resident may get a free library card from any of those libraries. If you are enrolled exclusively in online education courses at Skyline College, but you do not have a PLS library card and are unable to come to a library to get a card, complete the Online Education Library Access Application Form to apply for a library barcode number. After we verify that you are a student enrolled exclusively in online courses, we will email you a library barcode number that will enable you to remotely access Skyline College Library's online research databases for up to one semester.

Please note that you will not be able to check out physical library books or other physical materials with this barcode number. To borrow books and other library materials you must successfully apply for a library card which requires that you come into Skyline College Library or any other PLS Library and present a photo ID and proof of your current mailing address.

How to access online library resources

Search for most resources on our [Search page](#).

- Books: The Skyline College Library shares a library catalog with all of the public libraries in San Mateo County (PLS). Use the PLS library catalog to search for books (both print and electronic), DVDs, CDs, and other library material. You can place items on hold and have them sent to your closest San Mateo County public library.
- eBooks: As a Skyline College student you have access to a wide variety of books that you can access and read electronically on your laptop, PC, iPad, iPhone, Kindle, and other personal reader devices (view [eReader devices page](#) to see supported formats) for a limited period of time. After your check-out period has expired you will have to check it out again online. Many eBooks don't allow multiple user access at one time, so if there's a eBook you want and it's "checked out", check back at a later date. If you are having trouble viewing eBooks on your reading device, please refer to the manufacturer's website or manual.
- Magazine, Journal and Newspaper Articles: the Skyline College Library has subscriptions to many databases containing full-text magazine, newspaper and journal articles across a variety of subjects. To access databases you need an active PLS library card.
