Transfer Center

Where will your future take you?

Fifty-eight percent of Skyline College students hope to transfer to a four-year college or university. We know that successfully transferring is what drives many of you to attend Skyline College.

The Transfer Center is here to make the transfer process easier by providing you with the tools you will need to streamline your time here while making the most of your Skyline College experience. Your time is valuable, and we want you to reach your goals, so you can get in, get out, and continue your education at a university of your preference.

The Transfer Center provides comprehensive transfer services, resources, activities, and events. Transfer assistance includes the following: application workshops, and informational sessions, university campus tours, transfer fairs and conferences, visits from university admission professionals, and access to computers for college research. In addition, our counseling team assists students in accessing and completing Transfer Admission Guarantee (TAG) agreements and our counselors assist students with evaluations and educational planning. The counseling is provided by our counselors through their expert knowledge of transfer requirements and transfer articulation information.

What We Do:

Summer Hours and Contact Info

Mon: 8:30 a.m. to 4:30 p.m.
