

Learning Communities

What is a Learning Community?

Learning Communities are two or more classes, often in different departments, designed to be taken together by the same group of students in each class of the Learning Community. Learning Communities are designed to connect students to each other, to their teachers, to the college, and to student learning. The classes have a common theme and coordinate their assignments. This allows students to work on themes from a multi-disciplinary perspective.

In Learning Communities, faculty members assist learning and innovation as everyone works together to create community in a positive learning environment. Students participate in groups to share ideas and help each other learn.

There is a greater sense of involvement with students and professors.

ASTEP: AFRICAN-AMERICAN SUCCESS THROUGH EXCELLENCE AND PERSISTENCE

The African-American Success Through Excellence and Persistence (ASTEP) learning community allows you to examine the complex issues of African descended peoples, including African-American culture, tradition, identity, history and contemporary life through classes, lectures, discussions, films, guest speakers and presentations. The ASTEP program helps students of all ethnicities and abilities identify their strengths and talents. The theme for the ASTEP learning community for 2013-2014 is UMOJA (Unity): To strive for and to maintain unity in the family, community, nation, and race. For more information about the ASTEP Learning Community, call Phyllis Taylor at (650) 738-4233 or email taylorp@smccd.edu.
