Transfer Curricula

The majority of Skyline College courses have been reviewed and approved for transfer by four-year colleges and universities through formal articulation agreements. These courses apply to one or more General Education, lower division major and/or elective requirement. These transferable courses have University of California (UC) and/or California State University (CSU) designations in this schedule. Most majors at four-year colleges and universities require completion of one or more lower-division courses as preparation for the upper division. Nearly all of these lower division requirements can be met through transferable Skyline College courses. Students can complete four-year institution General Education requirements prior to transfer.

Articulation agreements, available at www.assist.org, identify which courses apply to General Education and lower division requirements at four-year universities. Students can complete many of the lower division requirements for majors offered by UC, CSU or independent institutions, even if Skyline College does not offer the major.

Students can qualify for transfer to many four-year majors not specifically offered at Skyline College. Students should check the catalog of the college of intended transfer and meet with a counselor for additional information about major programs and requirements.

ARTICULATION WITH FOUR-YEAR INSTITUTIONS

To assist the student with transfer to four-year institutions, articulation agreements have been established with most California State Universities, University of California campuses and some independent California colleges and out-of-state institutions. These agreements define the courses at Skyline College that satisfy many lower division major requirements and General Education requirements at four year institutions. For more information on articulation agreements with the CSU and UC campuses, visit www.assist.org. For articulation agreements that Skyline College has with private colleges and out-of-state colleges, visit www.skylinecollege.edu/transfercenter.

ASSIST TRANSFER ARTICULATION INFORMATION

ASSIST is a computerized student transfer articulation information system that can be accessed online. It displays reports of how California community college courses can be applied when transferred to California State Universities and University of California campuses.

ASSIST is the official repository of articulation for California’s public colleges and universities, and therefore provides the most accurate and up-to-date information available about student transfer in California. ASSIST may be accessed at www.assist.org.

ASSOCIATE IN ARTS AND ASSOCIATE IN SCIENCE FOR TRANSFER DEGREES

Skyline College offers associate degrees (AA-T and AS-T) designed to support transfer to the California State University system. Students who complete the requirements for an Associate Degree for Transfer are eligible to apply for an associate degree AND meet minimum admissions requirements for transfer with junior standing to a California State University. Although earning an Associate Degree for Transfer does not guarantee a student admissions to all California State University campuses or majors, it does secure priority admissions consideration to his/her local CSU campus. To enhance a student’s competitiveness and success as a CSU applicant, in addition to completing the requirements for the associate degree for transfer, it is strongly recommended that students meet with their Skyline College counselor and utilize www.assist.org to see if there are additional courses suggested or required for a particular major at a specific campus.

REQUIREMENTS

The following is required for all AA-T or AS-T degrees:

1. Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:
   a. The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
   b. A minimum of 18 semester units or 27 quarter units in a major or area of emphasis as noted in the college catalog.
2. Obtainment of a minimum grade point average of 2.0

A grade of “C” or better, or “Pass” if the course is taken on a Pass/No Pass basis, is required for each course applied to the major.
CSU General Education Requirements 2016-2017

Upon completion of the full pattern of courses listed below, Skyline College will certify that a student’s lower division general education requirements are completed for any of the 23 campuses within the CSU system (partial certification also available). Certification is not automatic. You may request certification with your final transcript online via WebSMART. For further information, please consult with a Skyline College counselor or the Skyline College Admissions & Records Office.

Intersegmental General Education Transfer Curriculum (IGETC) 2016-2017

The Intersegmental General Education Transfer Curriculum (IGETC) is a general education pattern that fulfills all lower-division general education requirements at all California State University (CSU) and most University of California (UC) campuses/majors. It is also accepted by some private/independent or out of state universities. IGETC is usually recommended for students who intend to transfer to a CSU or UC campus, or who are not yet sure of their intended transfer university. Completion of the IGETC is not a requirement for transfer to the CSU or UC, nor is it the only way to fulfill the lower division general education requirements. Students transferring to CSU campuses may find it advantageous to follow CSU-GE requirements. Students transferring to UC may also complete campus specific breadth requirements. Please note: IGETC is not recommended and/or acceptable for some colleges and majors within the UC system. Please consult with your counselor.

**Note:**
- IGETC does not guarantee admissions to any CSU or UC campus. Please consult with a counselor regarding limitations or restrictions on the use of IGETC.
- All courses for IGETC must be completed with “C” or better grades. A “C–” is not acceptable.
- Courses listed in multiple AREAS shall not be certified in more than one area except for courses in Languages Other Than English (AREA 6 LOTE), which can be certified in both AREAS 3B and 6.

**Attention:** This checklist is a guide to help you in selecting courses and keeping track of your progress. You are strongly encouraged to meet with your counselor to determine which general education pattern is best for you to follow, review your course selections, and complete a Student Education Plan. The general education pattern you select is based on a variety of factors, including your major and the institution to which you plan to transfer.

Registration Information

REGISTRATION

- **Registration** through WebSMART will enable students to enroll in courses at all three San Mateo County Community College District campuses: Skyline College, College of San Mateo and Cañada College.
- **Fees** are due at the time of registration. You may pay fees online by credit card, or in person by credit card, cash, personal check or money order. You also have the option to apply for a payment plan and/or apply for Financial Aid.
- **Changes to registration status:** It is the responsibility of the student to drop classes within deadlines to avoid penalty grades and fee obligations.
- **Waitlists** are available for many classes. Please read the information in WebSMART to determine eligibility.

REGISTRATION APPOINTMENT NOTICE

Notification of your registration access date will be sent to you via your District email account ([my.smccd.edu](http://my.smccd.edu)). The notice contains your appointment date and information regarding your Personal Identification Number, or PIN. You may personalize your PIN at any time. You will be required to enter your PIN to register for classes through WebSMART. It is important to keep your PIN, as it will be required for future transactions in WebSMART, such as accessing final grades.

BEFORE REGISTRATION

- Clear any fee balances or holds on your record.
- Check for prerequisites, corequisites and recommendations for the courses in which you intend to enroll.
- Meet with a counselor/advisor for assistance in selecting your courses, if needed.
- Obtain permission from your counselor and the Admissions Office if you plan to enroll in more than 19 units.

HOW TO REGISTER

- Check for your appointment date in your college email account or on WebSMART.
- Register online through WebSMART at: [https://websmart.smccd.edu](https://websmart.smccd.edu).
- Log in with your District ID Number (G#) and PIN.
- Go to: Student Services, Registration – Add/Drop Classes.

Note: It is important to read all notices in WebSMART, as they contain the most current information regarding your account.

SHORT COURSE REGISTRATION

You may register for any short course prior to the first day of class, or until the class fills, whichever occurs first. Short course registration can be completed through WebSMART. To register on the first day of the course, you must obtain an Authorization Code from the instructor and use it immediately through WebSMART. Pay close attention to the registration instructions when using an Authorization Code.

Note: Refund deadlines for short courses differ from term-length courses and are often the first day of class. For details, check your Class Schedule Summary in WebSMART, review the “Refund Policy” on page 19 and/or contact the Cashier’s Office or Admissions and Records.

LATE REGISTRATION

If you are unable to register before the first day of class, you may register during the Late Registration period, with the use of a four-digit Authorization Code. (See Late Registration dates on page 6.) An Authorization Code allows a student to add a class after it has started. To activate the code, follow the registration steps detailed in WebSMART. Please read the instructions very carefully, as there are extra steps involved when using an Authorization Code.

VARIABLE UNITS

Some courses are offered for variable units, which are earned according to the amount of subject matter the student completes during the length of the course. Students can select the number of units they intend to complete at the time of registration, through WebSMART. There are no refunds for units not earned. Students earning additional units will be charged accordingly.

GRADE “TYPE” OPTIONS

Some courses are limited to a single type of grading method and some may have grading options, such as “Letter Grade” or “Pass/No Pass.” Students are required to make their grade-type selection at the time of registration through WebSMART and may change their option during the first 20% of the class period. Exact deadline dates can be obtained from your instructor or through WebSMART.

Note: A grade of “P” is equivalent to earning a passing grade, such as “A, B or C”; a grade of “NP” is equivalent to a substandard grade of “D or F”. Please be aware of degree, certificate and transfer requirements when selecting the Pass/No Pass option.
OPEN ENROLLMENT

Every course offered at Skyline College (unless specifically exempted by legal status) is open for enrollment by any person who has been admitted to the college and meets the prerequisites of the course or program, provided space is available. Enrollment in any course or program will be subject to all applicable deadlines.

DEFINITIONS OF STUDENT CLASSIFICATIONS

CONTINUING STUDENT

For registration purposes, a Continuing Student is defined as a student who did not have a break between this term and their previous term in qualifying registration activity. Qualifying activity includes having been Registered, Dropped, Withdrawn, Graded, or having received an Incomplete. If a student was “Waitlisted Only” in the previous term, they do not qualify as “Continuing.”

Continuing Students may be eligible for Priority Registration. Registration appointments are assigned to Continuing Students based on cumulative units earned.

Continuing Students must have a current SEP (Student Education Plan) on file in order to be eligible for Priority Registration. Students are strongly encouraged to meet with a counselor for assistance in selecting appropriate courses to meet their individual goals.

NEW STUDENT

You are considered a New Student if you have never registered at Skyline College, the College of San Mateo or Cañada College.

• If you were a High School Concurrent Enrollment student, and have graduated, or will graduate high school before the start of the term, you are considered a “New” college student. You must reapply for Admission.

RETURNING STUDENT

If you were in attendance at Skyline College, College of San Mateo or Cañada College one year prior to the start of the term and have not been in attendance since, you are considered a former student and must reapply for admission. If you previously applied for admission online, update your prior application online and resubmit.

TRANSFER STUDENT

If you attended a college or university other than Skyline College, College of San Mateo or Cañada College, you are a transfer student at Skyline College and must apply for admission. You may be eligible for exemptions from some of the Student Success and Support Program requirements listed on page 7. Make an appointment with a counselor to review your unofficial transcripts.

PREREQUISITES/COREQUISITES

The San Mateo County Community College District (SMCCCD) is using a computerized prerequisite checking system. A student who has NOT met the stated prerequisite for the course will not be allowed to enroll. In addition, all stated Corequisite courses must be taken concurrently. Students are strongly encouraged to accept the recommendations stated for courses but will not be prevented from enrolling in the classes where the advisory is stated as “recommended” in the class schedule.

Students should meet with a counselor if they have questions about whether they have met the stated prerequisite.

What are Prerequisites, Corequisites and Recommendations?

**Prerequisite:** A course or body of knowledge that must be successfully completed (grade of C or Credit or better) before a student can enroll in a specific course.

**Corequisite:** A course that must be taken concurrently (at the same time) with another course.

**Recommendation:** A course that faculty recommend be completed in advance to enhance or improve a student’s ability to succeed in a specific course.

Why Prerequisites and Corequisites?

Title 5 (state regulations that govern community colleges) requires that, if a course has a prerequisite, it must be necessary for the student to succeed in the target course. Furthermore, the college must ensure that the prerequisite is equitably and fairly enforced and that it has been approved in a separate action by the curriculum committee at each college.

What if I am currently enrolled in the prerequisite course(s) within the SMCCCD?

If you are currently enrolled in the prerequisite course(s), the computer will not prevent your enrollment in the desired course. However, should you receive a final grade other than “A,” “B,” “C” or “P” in the prerequisite course(s), you will be notified by Admissions and Records through your student email (my.smccd.edu) that you have been administratively dropped from the course. You are advised to meet with a counselor for further assistance with enrollment.

What if I completed the prerequisite at another college outside the San Mateo County Community College District?

If you believe you have met the stated prerequisite at another college/university outside the San Mateo County Community College District, you must file a Prerequisite Equivalency/Reciprocity of Course Placement form with the Counseling Department. The form is available at the One Stop Center in Building 2, and online at https://www.skylinecollege.edu/prerequisites/prerequisiteprocess.php. Submit the completed form with a copy of your unofficial transcript or grade report from the other college to the Counseling Appointment Desk in Building 2, or by fax (650) 738-4195 or email skycounseling@smccd.edu. If your prerequisite request is approved, the enrollment block will be lifted, allowing you to enroll in the course. If your request is denied, you will be contacted by the Counseling Center as to the reason(s) why.

How can I challenge a prerequisite?

You can challenge a prerequisite on one or more of four grounds, listed below:

- If you believe you have the knowledge or ability to succeed in the course without completing the prerequisite.
- If you believe that the prerequisite has been established in violation of Title 5 regulations or the SMCCCD District Model Policy.
- If you believe that the prerequisite is discriminatory or is being applied in a discriminatory manner.
- If you believe that the prerequisite course has not been made reasonably available.

How do I file a prerequisite challenge?

If you wish to file a prerequisite challenge, follow these steps:

- The Prerequisite Challenge Form is available at the Student Services Information Center in Building 2 or online at https://www.skylinecollege.edu/prerequisites/prerequisiteprocess.php. A counselor can help you determine whether you would benefit from the challenge process.
- Next you should contact the appropriate division dean to obtain specific information about filing and documenting your challenge request.
- If you elect to challenge, submit the completed challenge form with documentation to the appropriate Division Office for review.
- You will be notified in 5 business days if your challenge is subsequently approved, and you will be allowed to enroll in the course. If your challenge is not approved, you will be administratively withdrawn from the course.

What message will I receive on WebSMART if I do not meet the prerequisite for the course in which I am attempting to enroll?

If you have not met the prerequisite or presented documentation to challenge the prerequisite you will receive the following message on WebSMART when you attempt to enroll: **You do not meet the prerequisites for this course.** You will not be able to register for the class until you clear the prerequisite(s). To obtain prerequisite information, equivalency/challenge processes, and forms go to: http://www.skylinecollege.edu/prerequisites.

**SPRING FEE PAYMENT POLICY**

Fees are subject to change at any time by action of the State Legislature, Board of Governors of the California Community Colleges, or the San Mateo County Community College District Board of Trustees. While it is the intention of the local governing board that any proposed fee increases be moderate and predictable, due to the ongoing State budget shortfall, fee increases could be adopted at any time. In the event of a fee increase, students will be notified of the increase and any subsequent amount owed will be posted on their WebSMART account, and through emails to their my.smccd.edu email address.

Registration for spring term begins on November 2, 2016. You will not be able to register for classes if you have any outstanding balances on your account.

All records are automatically held until all outstanding debts to the District Colleges have been cleared.

Review your account on WebSMART regularly for current balances.

THE REFUND DEADLINE FOR SEMESTER-LENGTH CLASSES IS JANUARY 30, 2017.

- To be eligible for a credit or refund, a student must officially withdraw from a course within the stated deadline as displayed on WebSMART. Check your Class Schedule Summary for exact refund dates. If registration occurs after the refund date for a class, no refund will be available.
- For summer or short courses, withdrawal must occur within the first 10% of the course (often this is the first day).
- If you decide not to attend classes, it is your responsibility to officially withdraw within published deadlines to avoid penalty grades and fee obligations. A withdrawal initiated by a professor may not result in a refund.
- A student may either maintain a credit balance on their account or request a refund.
- Refunds are not issued automatically. You must contact the Cashier’s Office to request a refund.
- Credit balances remain on student accounts for a maximum of five (5) years.
- Fees paid by personal check(s) require 10 business days for bank clearance before refunds can be processed.

Split Honors Sections

These Honors sections are held simultaneously with a non-Honors section of the same course. All students enrolling in these sections will be required to do Honors-level work. Students are advised that registration in an Honors section does not give the student the right to change registration into the non-Honors section associated with it. Changes in the student's schedule will follow regular procedures: (1) you may drop a class at any time until the last date to withdraw, and (2) classes may be added only during the late registration period provided that there is room in the class. Students wishing to switch sections will go to the bottom of the waitlist for full sections.

Learning Communities

What is a Learning Community?

Learning Communities are two or more classes, often in different departments, designed to be taken together by the same group of students in the Learning Community. Learning Communities are designed to connect students to each other, to their teachers, to the college, and to student learning. The classes have a common theme and coordinate their assignments. This allows students to work on themes from a multi-disciplinary perspective.

In Learning Communities, faculty members assist learning and innovation as everyone works together to create community in a positive learning environment. Students participate in groups to share ideas and help each other learn. There is a greater sense of involvement with students and professors.

EDUCATION FELLOWS
The ECE/EDU Program, open to all students, provides a rewarding, supported academic learning experience for those interested in a career in Education or Childcare and offers two cohorts to support students’ goals.

The Teacher Education (TE) cohort offers courses in conjunction with hands-on experience at the Skyline College Child Development Laboratory Center (CDLC) [http://skylinecollege.edu/childdevelopmentcenter/](http://skylinecollege.edu/childdevelopmentcenter/). Students may select a schedule that includes M/W courses paired with T/Th morning internship hours at the CDLC, or T/Th courses paired with a M/W morning internship. Courses in this cohort have a section designator of TE. Students can choose this cohort for one or two semesters. The Career Advancement Academy (CAA) provides students with introductory level preparation for occupations in educational settings serving preschool children, infants/toddlers, and school-age children. This one semester, full-time program culminates with the Career Certificate: Fundamentals in Early Childhood Education. Please email skycrr.@smccd.edu or call (650) 738-7042 for more information. Courses in this cohort have a section designator of CAC. The Education Fellows CAA is offered only during the fall semester each year.

Both cohorts include a one-unit course, ECE. 331 – The Role of the Teacher. All students in the Education Fellows Learning Community benefit from support and guidance through the admission and registration process, textbook support, CA Permit application assistance, professional growth opportunities, and individualized advising and support from dedicated staff and faculty. Students are supported and encouraged to apply for the California Child Development Permit at the Assistant Teacher level after completion of one semester, or the Associate Teacher level permit after completing two semesters. For more information about this Learning Community or the permit application process, please contact Kristina Brower at brower@smccd.edu or call (650) 738-4304, and visit the program’s website at [http://www.skylinecollege.edu/earlychildhoodeducation](http://www.skylinecollege.edu/earlychildhoodeducation).

ENGINEERING AND TECHNOLOGY SCHOLARS
The Engineering and Technology Scholars (ETS) Learning Community is a contextualized and accelerated cohort program designed to engage and support students in Engineering and Computer Science, and Biotechnology pathways. Part of the Silicon Valley Engineering Tech Pathways project, the ETS program helps students move through core Math, Physics, Chemistry and English courses together as a group with support from Math and Engineering faculty and a Student Support Specialist. Through supportive group-based learning, engagement in academic success strategies, contextualized mathematics, hands-on and team-based design projects, and introduction to advanced manufacturing techniques in a brand new state-of-the-art Fabrication Laboratory, students progress from entry-level mathematics through intermediately advanced Science, Engineering and Technology courses. The ETS program prepares students for an Associate in Science Degree in the Engineering and Tech pathways and transfer to university, in addition to cultivating hands-on design and manufacturing experience to place students in entry-level internships in the Silicon Valley and San Francisco tech industries. For more information, contact Nick Langhoff at (650) 738-4249 or langhoffn@smccd.edu.

**ART (ART)**

(See also: FILM.)

Art activity courses are subject to repeatability limitations. Students are now limited to a maximum of four courses per family. A family of courses may contain more than four courses. If there are more than four courses in a particular family, a student may only enroll in a maximum of four total courses within that family. A course previously taken by a student (prior to the legislation) within the identified family will count as a repeat and limit future enrollments of courses within that family to a maximum of four.

Art activity courses are offered in levels by progression. Courses are listed by title; for example, Black and White Photography, Ceramics, etc, and then by level. Level I is beginning; Level II is intermediate; and Level III is intermediate/advanced.

New students are advised to enroll in the beginning level and be placed by their instructor upon assessment. Continuing students who have previously taken a course within a family, must progress to the next level.

All students enrolling in this section will be required to do Honors-level work. ASTR 101 (CRN 43447) is held simultaneously with a non-Honors section of the same course. Students are advised that registration in an Honors section does not give the student the right to change registration into the non-Honors section associated with it. Changes in the student’s schedule will follow regular procedures: (1) you may drop a class at any time until the last date to withdraw, and (2) classes may be added only during the late registration period provided that there is room in the class. Students wishing to switch sections will go to the bottom of the waitlist for full sections. Transfer: UC; CSU (B3).

DRAMA (DRAM)

Drama activity courses are subject to repeatability limitations. Students are now limited to a maximum of four courses per family. A family of courses may contain more than four courses. If there are more than four courses in a particular family, a student may only enroll in a maximum of four total courses within that family. A course previously taken by a student (prior to the legislation) within the identified family will count as a repeat and limit future enrollments of courses within that family to a maximum of four.

Drama activity courses are offered in levels by progression. Courses are listed by title; for example, Acting, Rehearsal and Performance, etc, and then by level. Level I is beginning; Level II is intermediate; Level III is intermediate/advanced; and Level IV is advanced. The course number also indicates the level. For example, a beginning Acting class would be listed as DRAM 201.1, Acting I while an advanced Acting class would be DRAM 201.4, Acting IV.

New students are advised to enroll in the beginning level and be placed by their instructor upon assessment. Continuing students who have previously taken a course within a family, must progress to the next level.

KINESIOLOGY

As a result of changes to Title 5 regulations, Kinesiology and Dance activity courses are no longer repeatable. Kinesiology and Dance activity courses are now offered in levels by progression. Courses are listed by title; for example, Basketball, Tennis, Ballet, etc., and then by level. Level I is beginning, Level II is intermediate, Level III is intermediate/advanced, and Level IV is advanced. The course number also indicates the level. For example, a beginning Tennis course would be listed as INDV 251.1, Tennis I, while an advanced Tennis class would be listed as INDV 251.4, Tennis IV.

Course levels may be scheduled simultaneously. New students are advised to enroll in the beginning level and be placed by their instructor upon assessment. Continuing students who have previously taken and successfully completed a course must progress to the next level.

Students are now limited to a maximum of four courses that are related in content which are considered a family. A family may contain more than four courses. If there are more than four courses in a particular family, a student may only enroll in a maximum of four total courses within that family. A course previously taken by a student (prior to the changes) within the identified family will count as a repeat and limit future enrollments of courses within that family to a maximum of four.

For information about these changes, what courses constitute a family, or if you are not able to enroll in a class, please contact Joe Morello, Division Dean of Kinesiology, Athletics and Dance, at (650) 738-4271 or morelloj@smccd.edu. You can also refer to the Skyline College website at http://www.skylinecollege.edu/kinesiologyphysed/ for information.

LEARNING SKILLS (LSKL)

Supplemental Instruction
Supplemental Instruction (SI) is a voluntary academic assistance program that utilizes peer-led group study to help students succeed in traditionally difficult courses. SI sessions are led by Skyline College students who have previously completed the course successfully and have received SI training.

Supplemental Learning Assistance
Supplemental Learning Assistance is a required academic assistance program for certain courses and learning communities. LSKL courses are linked with specific ENGL and MATH courses.

Supervised Peer Tutoring
Free peer tutoring is available to students in a variety of subjects at the Learning Center. Students must be enrolled in LSKL 803 to receive tutoring.

Interested in Becoming a Tutor?
The first step to becoming a peer tutor in the Learning Center is to register for LSKL 110, the tutor training course. Students completing LSKL 110 will receive course credit and earn the first step toward a CRLA Level 1 tutor certificate. With your CRLA certificate you will be eligible to work in The Learning Center as a tutor, as the budget permits.

Supplemental Instruction (SI)

Supplemental Instruction (SI) is free weekly volunteer study sessions for challenging classes, led by trained Skyline College students (SI Leaders) who have already passed the course.

Why you should attend:
• Develop a better understanding of course material
• Develop more effective ways of studying
• Prepare for tests, quizzes, presentations, papers and more
• Interact with other students in your class and build community
• Finish the course and get better grades

How does SI work?
SI Leaders attend class meetings, work with the instructors, and hold study sessions 1-3 times per week. Most SI sessions take place either right before or after class, but meeting times are flexible.

*Look for SI in the WebSchedule!

IMPORTANT
Which Transfer math courses you take depends on your transfer destination and your intended major.
To select the appropriate math class, see a counselor and use PROJECT ASSIST (www.assist.org) to retrieve course articulation information.

What should I know about Distance Education (DE) courses at Skyline College?

The San Mateo County Community College District is committed to providing students and the community access to transfer education and workforce training through career/technical programs. Skyline College provides such access through Distance Education. Through Distance Education courses, all students will have access to earning associate degrees, credit for courses that satisfy transfer course requirements, and career/technical education. These courses are designed to give students greater freedom of scheduling, but they can require more self-discipline and as much time and effort as on-campus classes. For new or first-time DE students, please keep in mind the following:

- Online courses are recommended for students who can work well independently and have solid study skills and self-discipline.
- Online courses have parity with courses taught in the classroom and are transferable to most four-year colleges and universities.
- Students enrolled in online courses have the same status as students enrolled in on-campus courses.
- Online courses require as much time and effort as on-campus courses, yet give students greater flexibility with their schedules.
- It is important to have reliable computer access and Internet in your home. If you do not, computers are available at Skyline College or through your local library.

All communication between student and instructor occurs through the student email system known as “My.SMCCD”. Information to set up and use the account can be found here: http://my.smccd.edu/

Skyline offers two different types of distance learning, Online or Hybrid courses.

Online Courses

Online courses are those in which the instructor and student are separated by distance for the entire course and can interact exclusively (100%) through the assistance of computer technology. The course is conducted through Skyline’s Learning Management System called WebACCESS or Canvas. The course may include text and sound and video links, in addition to other online resources. Students interact with the instructor and other students through posted class discussions, direct individual communication, and assignments (which may include group work). Testing may be done online, via proctoring arrangements, or by other means. Instructors require no mandatory on-campus meetings. If an instructor wishes to incorporate on-campus meetings into the course, the instructor/student will provide for alternative distance education means of student participation.

Hybrid Courses

Hybrid courses are those that substitute 51% to 99% of face-to-face instructional hours with online work, and have some regularly scheduled on-campus meetings without alternative distance education means of student participation.

We Respect Your Privacy

Skyline College helps protect its students’ privacy and authenticates its students’ identity by requiring secure login and password whenever a student registers for classes, reviews his/her enrollment information, or logs in to any other secure SMCCCD site. The District will not share student login and password information with anyone, and students are advised not to share their login and password information. A statement to this effect is posted prominently for students each time they login to WebSMART, the San Mateo County Community College District’s electronic registration system.

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

Skyline College is moving to a new Learning Management System. During the 2016-2017 academic year we are moving from WebACCESS to Canvas. During the Spring 2017 semester some Online/Hybrid courses will be taught in Canvas, while others will still be taught in WebACCESS. Detailed information on Canvas and which courses will be taught in Canvas during the spring is available on the Skyline College Distance Education homepage:

CALWORKS PROGRAM

Skyline College provides assistance to students who are receiving CalWORKs/TANF (cash-aid) benefits, or who received aid within the past two years. Services to eligible students include counseling, priority registration, job development assistance, work study, transportation assistance, and Welfare-To-Work advocacy. The CalWORKs office is located in Building 2. For more information, please call (650) 738-4171.

CARE – COOPERATIVE AGENCIES RESOURCES FOR EDUCATION

Cooperative Agencies Resources for Education (CARE), a program within EOPS, is specifically designed for students who are single heads of household, are receiving CalWORKs/TANF, and who have a child under 14 years of age. CARE provides additional support services over those provided by EOPS, such as transportation assistance, vocational grants, school supplies, and special workshops designed to meet the needs of CARE students. The CARE office is located in Building 2. For more information call (650) 738-4171.

CAREER SERVICES CENTER

The Career Services Center offers a wide variety of services and resources to assist students with their individual career goals. We encourage students to explore career options by taking advantage of our comprehensive career services:

- Career and academic counseling
- Career assessments and interpretations
- Workshops that address career research and job search skills
- Job and internship postings at www.skylinejobs.com
- EUREKA, a computer-based California Career Information System
- Employment and internship services

The Center is located in Building 1, Room 1219B, (650) 738-4337. Visit www.skylinecollege.edu/careercenter or email skycareers@smccd.edu.

CHILD DEVELOPMENT LAB CENTER – CHILD CARE SERVICES

The Skyline College Child Development Lab Center (CDLC), located in Building 14, is a laboratory program that provides a comprehensive child care and early education program for students, staff, and faculty of Skyline College and community members. The program provides the following services for children from infancy until entry into kindergarten: child care and early education experiences from 7:30 am – 5:00 pm during the regular academic year, three nutritious daily meals, observation and assessment of children’s typical development, resources and referrals for a wide variety of supports for children and families, parent information and workshops on topics relevant to families with young children, and home visits/conferences to discuss children’s development and school readiness skills. The Skyline College Child Development Lab Center is partially funded by the California Department of Education and income-eligible families may receive child care subsidies. For more information, call (650) 738-7070.

COUNSELING SERVICES

The Counseling Division at Skyline College is designed to assist individuals in all aspects of their development as students and help them accomplish their goals. Career and educational counseling services are emphasized. A counselor can help students establish both short and long range goals and provide them with information about courses and programs that transfer to four-year colleges and universities. Counselors assist students in developing an individual Student Educational Plan (SEP), which maps out courses that will be taken over a number of semesters and serves as a guide to achieving goals. All students are required to have an SEP on file once they have completed 15 units at Skyline College. Assistance with students’ personal and social concerns is also available.

Counseling appointments are made in the One-Stop Student Services Center, Building 2, or by calling (650) 738-4318.
**DISABILITY RESOURCE CENTER**

Skyline College’s Disability Resource Center (DRC) is designed to equalize the educational opportunities of students with verified disabilities. Services include, but are not limited to, Learning Differences Assessment, ASL interpreting, registration assistance, extended time testing, lockers, adaptive physical education classes, adaptive computer classes and software, and alternate formats of textbooks.

Skyline College and the DRC program are committed to providing services that will enhance the educational experience of its disabled student population. For a more detailed description of the Disability Resource Center, stop by the DRC, Building 5, first floor, Room 5132, call (650) 738-4280, or email skydrc@smccd.edu.

**ENROLLMENT OR DEGREE VERIFICATION**

Verification may be accessed and printed as a free service to students. Access Enrollment/Degree Verifications from the Student Records Menu at https://websmart.smccd.edu.

**EXTENDED OPPORTUNITY PROGRAMS AND SERVICES (EOPS)**

Extended Opportunity Programs and Services (EOPS) is a program of support services designed to improve access, retention and completion of educational goals for students who are low income and educationally disadvantaged. EOPS students have the potential to succeed in college but have not been able to realize their potential because of economic and/or educational barriers.

EOPS offers a variety of services such as:

- Book Service Program
- Calculator/Chromebook/SMARTpen
- Loan Programs
- Counseling in English and Spanish
- Priority registration
- Transfer assistance to four-year colleges and universities
- UC and CSU application fee waivers for transferring students
- Vocational grants

**COURSE REPETITION**

A “course repetition” occurs when a student who has previously received an evaluative symbol (i.e., A, A-, B+, B, B-, C+, C, D+, D, D-, F, W, P/NP, CR/NC, RD, I) in a credit course, re-enrolls in that course and receives an evaluative symbol OR attempts a course and receives an evaluative or non-evaluative symbol for the course and wishes to enroll again in the same course. All course attempts in a student's academic record count toward this enrollment limitation.

**COURSE REPETITION TO ALLEVIATE SUBSTANDARD WORK**

1. A student who has earned a substandard grade (i.e., D+, D, D-, F, NP, NC) in a course that is not designated as repeatable may repeat the course to improve the grade. To alleviate substandard work, a “course attempt” occurs when a student receives an evaluative or non-evaluative symbol for the course. All course attempts in a student’s academic record count toward this enrollment limitation.

2. When a student repeats a course to alleviate substandard academic work (i.e., D+, D, D-, F, NP, NC), the previous (i.e., last) grade and credit will be disregarded in the computation of grade point averages. A student may attempt a course a maximum of three times. A “W” counts as a course attempt. A fourth attempt may be permitted if the student meets one of two criteria:

- **Significant Lapse of Time**: at least 36 months has elapsed since the student was awarded the grade in the course (at the end of term).
- **Extenuating Circumstances**: Extenuating circumstances are verified cases of accident, illness, natural disaster, or other circumstances beyond the control of the student. Grades awarded for courses repeated under these provisions may be included when calculating a student’s grade point average. Students must present a petition to the Admissions and Records Office and provide compelling documentation of the extenuating or extraordinary circumstances to justify such repetition.

**COURSE REPETITION FOR SATISFACTORY WORK**

When a student completes a course that is not designated as repeatable and receives a satisfactory grade (i.e., A, A-, B+, B, B-, C+, C), the student may not repeat the course, unless there is another provision that allows the repetition. Examples of these provisions are described below:

**Course Repetition for Significant Lapse of Time**

1. A student may repeat a course in which s/he has received a standard grade (i.e., A, A-, B+, B, B-, C+, C, or Pass) after at least 36 months has elapsed since the student was awarded the grade in the course (at the end of term) and the District has established a recency prerequisite that applies to the course, or an institution of higher learning to which the student seeks to transfer has established a recency requirement which the student will not be able to satisfy without repeating the course.

2. The grade and units from the first course completion will be disregarded in the computation of grade point averages.

3. If a student needs to repeat an active participatory experience course in physical education or visual or performing arts, or an active participatory course that is related in content, due to significant lapse of time, that repetition shall be counted in applying the limit on repetitions set forth except that, if the student has already exhausted the number of repetitions permitted, and additional repetition due to significant lapse of time may be permitted. The student should submit a petition to the Admissions and Records Office.

**Course Repetition for Students with Verified Disabilities Repeating a Special Class**

1. A student with a verified disability may repeat a special class designated for students with disabilities any number of times when an individualized determination verifies that such repetition is required as a disability-related accommodation for that student. When a student with a disability repeats a class, the previous grade and credit shall be included in the computation of grade point averages.

2. Special classes are those instructional activities designed to address the educational limitations of students with disabilities who would be unable to substantially benefit from regular classes even with appropriate support services or accommodations.
Course Repetition for Variable Unit Courses

A student may enroll in a variable unit course as many times as necessary to complete one time the entire curriculum and unit value of the course. However, a student may not repeat any portion of a variable unit course that has already been completed and evaluated.

Course Repetition for Legally Mandated Courses

1. A student may repeat a course as many times as needed if it is required for a student to meet a legally mandated training requirement as a condition of paid or volunteer employment, regardless of whether the student received a substandard grade (i.e., D+, D, D-, F, No Pass). A student must present documentation to the Admissions and Records Office to certify that the course is legally mandated. Admissions staff will approve/disapprove the repetition.

2. A student may petition to repeat a course needed for employment or licensing because of a significant change in the industry or licensure standards. Student may take these courses any number of times. A student must present documentation to the Admissions and Records Office to certify that the course is needed because of a significant change in the industry or licensure standards. Admissions staff will approve/disapprove the repetition.

Course Repetition for Cooperative Work Experience Education

1. A student may repeat an occupational work experience course if the College only offers one course in occupational work experience in a given field and that course is not offered as a variable unit open-entry/open-exit course.

2. A student may repeat an occupational work experience course any number of times as long as the student does not exceed 16 units of cooperative work experience.

Course Repetition For Extenuating Circumstances

1. Under certain circumstances, students may repeat a course if extenuating circumstances justify a repetition. Students must provide documentation of the extenuating or extraordinary circumstances to justify such repetition. Extraordinary circumstances are similar to those that would justify the District in providing a student a refund.

   Extenuating circumstances are verified cases of accident, illness, natural disaster, or other circumstances beyond the control of the student. Grades awarded for courses repeated under these provisions may be included when calculating a student’s grade point average. Students must present a petition to the Admissions and Records Office. Students will be notified once a decision has been made.

   2. A student may enroll for one additional attempt only if documentable extenuating circumstances exist that match the dates of the course for the previous enrollment. Examples of extenuating circumstances are fire, flood, accident/hospitalization, or other extraordinary documentable experience. Students must present a petition to the Office of Admissions. Students will be notified once a decision has been made.

COURSES RELATED IN CONTENT

1. The SMCCD has established related courses with similar educational activities (See #2 below.) Although a course cannot be repeated, a student may attempt up to four related courses. This limitation applies even if the student receives a substandard grade (i.e., D+, D, D-, F, NP, NC) or a “W.” Enrollment limitations are monitored District wide for related courses.

2. Students may attempt active participatory courses in physical education/kinesiology, and visual or performing arts where the course objectives are met by repeating a similar primary educational activity and an expanded educational experience occurs each time the course is attempted for the following reasons:

   a) The student’s skills or proficiencies will be enhanced by supervised repetition and practice within class periods and

   b) Active participatory experience in individualized study or group assignments is the method to learn the objectives.

GENERAL PROVISIONS REGARDING COURSE REPETITIONS

1. Courses that are repeated shall be recorded on the student’s permanent academic record using an appropriate symbol.

2. The permanent record shall be annotated in a manner that all work remains legible, insuring a true and complete academic history.

3. The District may claim the attendance of students for enrollments in credit courses for state apportionment.

4. Nothing in these procedures shall conflict with Education Code, Title 5 or District procedures relating to the retention and destruction of records.
REPEATABLE COURSES

Three types of courses are designated as repeatable:

1. Intercollegiate Athletics
   Courses in which student athletes enroll to participate in an organized competitive sport sponsored by the district or a conditioning course which supports the organized competitive sport.

2. Intercollegiate Academic or Vocational Competition
   a) Courses that are specifically for participation in non-athletic competitive events between students from different colleges may be designated as repeatable. The course must be tied to the student's participation in the competition. The event must be sanctioned by a formal collegiate or industry governing body.
   b) Enrollment is limited to no more than four times. This enrollment limit applies even if the student receives a substandard grade or "W" during one or more of the enrollments in such a course or petitions for repetition due to special circumstances.
   c) When a course is repeated pursuant to this section, the grade received each time shall be included for the purposes of calculating the student's grade point average.
   d) Apportionment shall be limited.

3. Required by CSU or UC For Completion of a Bachelor's Degree
   Repetition of the course is required by CSU or UC for completion of the bachelor's degree. Courses are limited to four attempts and this enrollment limitation applies even if the student receives a substandard grade or a "W."

WITHDRAWAL/DROP

1. Withdrawal from a class MUST be initiated by the student through WebSMART. Students who are blocked from withdrawal due to Academic Standing may withdraw in-person at the Office of Admissions and Records.

2. IMPORTANT WITHDRAWAL/DROP TIMELINES:
   a. Drop with a refund
      - Semester-length Courses: First 2 weeks of instruction
      - Short Courses: First 10% of instruction
   b. Withdrawal with the notation of “W” shown on record
      - Semester-length Courses: From Census Day to before the last day of the 14th week of instruction
      - Short Courses: Prior to completion of the first 75% of instruction

3. The academic record of a student who remains in class beyond the last day to withdraw will reflect a grade. A student who does not attend class and follow the established Withdrawal procedures may be assigned a failing grade of “F” by the professor.

Parking and Transportation

**CAMPUS PARKING REGULATIONS**

All persons parking on the Skyline College campus are responsible for knowing and following the college’s parking regulations. Complete parking regulations are also available online at [www.skylinecollege.edu/parking](http://www.skylinecollege.edu/parking).

All persons driving an automobile, truck or van who utilize campus parking facilities during scheduled class hours and final examination periods are required to pay a parking permit fee and display a campus parking permit in their vehicle at all times while parked on the Skyline College campus. (Vehicles with valid Disabled Placards or Disabled License Plates and motorcycles parked in designated parking are excluded from needing a permit to park.) Students enrolled exclusively in weekend or off-campus classes are exempt. The parking fee is $52.00 for fall and spring semesters and $27.00 for the summer session, or a two-term permit may be purchased for $94.00 (fall and spring together). These fees are nonrefundable except by action of the college. **Parking permits may be transferred from one vehicle to another.**

One day parking permits are available for $2.00 per day from coin/bill operated parking permit dispensers located in student parking lots A, C, F, G, L, N and P. There are visitor lots that have pay-by-space, timed parking in Lots D and M.

Students may pay for their parking permits at the time of WebSMART registration, online or in person at the Cashier’s Office.

Students may park in designated student parking lots only. Staff lots are marked with yellow parking lines and are reserved for Staff and Faculty only. Please refer to the campus map for parking lot locations. While parking in Skyline College campus parking lots, all students, staff, faculty and the general public must obey all campus, local and state regulations.

A parking permit is required inside the vehicle in order to park in any lot on campus other than a visitor lot. All Staff parking areas on the Skyline College campus are restricted to San Mateo County Community College District employees (excluding student aids, assistants or student workers while enrolled in the current semester). Vendors and contractors at the college may also park in staff parking lots with proper authorization and permit.

Parking spaces are available on a first-come, first-served basis. Therefore, a parking permit is not a guarantee of a parking space. Skyline College and the San Mateo County Community College District do not accept liability for vandalism, theft or accidents. Use of campus parking facilities is at the user’s risk. However, any such incidents should be reported to the Campus Public Safety Office, Building 6, Room 106, (650) 738-4199.

**PARKING GRACE PERIODS**

There is a two-week grace period in student parking lots only at the beginning of the fall and spring semesters. There is a one-week grace period in student parking lots only at the beginning of the summer session. The grace period does not apply to staff lots, disabled person parking and other restricted parking areas.

**VISITOR PARKING**

Visitors to the Skyline College campus may park in Visitor Lot D or Visitor Lot M. These visitor lots are pay-by-space meter parking. After parking the vehicle, the visitor notes the number of the parking space, enters the number into the meter, and deposits coin or currency. The receipt from a visitor parking permit machine does not have to be displayed in the vehicle. Visitor parking permits are valid ONLY in the respective visitor parking lot in which they are purchased. Daily permits, Staff/Faculty permits, and Student permits are not valid in visitor parking lots.

Visitors may also park in student lots if they have purchased a daily parking permit. For the location of daily parking permit machines, please refer to the campus map.

**DISABLED PARKING**

No student, staff, daily, patron or visitor parking permit required when displaying either a valid CA Disabled Person Placard or License Plates. Blue disabled person parking spaces have been provided in Lots D, G, J, K, L, M, P, R, S and in front of the Pacific Heights building. (see Campus Map). A vehicle must have and display either a valid California State Disabled Person Placard or California Disabled License Plates (both issued by DMV) to park. Temporary parking permits are also available with doctor’s verification. For further information contact the Disability Resource Center, Building 5, Room 5132, (650) 738-4280; Disability Parking spaces are regulated under California Vehicle Code Section 22511.5 Disabled Parking Authorized Parking Zones.

**CAR/VAN POOL PARKING APPLICATION PROCESS**

Students who wish to participate in the Car Pool parking program can pick up an application at the Skyline College Public Safety Office. To qualify for the program, each student on the application must have paid for a semester or dual semester student parking permit(s). Each student must be enrolled in at least one class at Skyline College and there must be a minimum total of THREE students on the application.
The Public Safety Department is currently limited to 12 Car/Van Pool parking permits per semester. Each permit is valid only for the semester for which it is issued. The Public Safety Department will begin taking applications on the first day of every new semester. Permits are issued on a first come, first served basis upon submission of a fully completed permit application to the Public Safety Department.

**CAR/VAN POOL PARKING REGULATIONS**

Any vehicle parking in any Car/Van Pool parking stall without a visible Car/Van Pool parking permit issued by the Public Safety Department may receive a citation. Car/Van Pool parking permits are valid ONLY in designated Car/Van Pool parking spaces.

In order for a vehicle to park in a Car/Van Pool designated space, the vehicle MUST display a valid Car/Van Pool parking permit and a valid, student parking permit or valid daily parking permit, as well as have a minimum of two (2) occupants in the vehicle when it is parked. Car/Van Pool parking permits are valid only for the driver(s) and vehicle(s) listed on the application.

It is a violation of law to copy, duplicate, manufacture or otherwise reproduce Car/Van Pool parking permits as well as a violation of the Student Code of Conduct. Violators may be arrested and prosecuted for forgery and theft pursuant to California Penal Code sections 470 and 484, as well as face immediate student disciplinary action.

Car/Van Pool parking permits may not be transferred or loaned to another person or another vehicle that is not on the application. If a person displays a valid Car/Van Pool parking permit issued to another person or vehicle, that vehicle is subject to a citation. The Car/Van Pool parking permit will be seized and a report will be forwarded to the Vice President of Student Services for a violation of the Student Code of Conduct. The seized Car/Van Pool parking permit will not be returned to the person(s) who applied for the permit.
