

SPARC: Integrated Planning Resource Allocation - Summary

Tentative Fund 1 Budget Development
Fiscal Year 2021 -2022

May 13, 2021

Analysis of the Tentative Fund 1 Site Allocation for FY21-22

- As of April 27th, the SMCCCD Resource Allocation shows a balanced budget for FY 21/22. Revenues and expenditures will continue to be updated until the final budget is adopted in the Fall.
- A significant compensation adjustment for AFT/Non-rep/Admin COLA has not been yet determined and will not be distributed to the sites until after contracts are board approved.
- While Skyline College's current tentative site allocation projects an increase for FY21-22 of \$1.89 million, the distribution of negotiated compensation adjustments must be funded from this increase.
- As a result, the amount of new dollars available for distribution for college resource needs/requests will be reduced.

Proposed Budget Recommendation for FY21-22

- It is recommended that the Committee consider a status-quo budget for FY21-22 (no budget increases) over and above the year-over-year change in permanent salaries and benefits.
- Unspent available balances from FY20-21 can be used to fund one-time needs, including CPI or other similar non-recurring expenditures.
- This may also include specific resource requests from Division ALURs in support of operational expenditures during FY21-22.
- HEERF Institutional support dollars will be available to cover COVID-related expenditures during recovery (i.e. student support services, technology & equipment, training/PD, etc.)
