

# UC-TCA, CSU-GE, & IGETC Articulation Timeline

Courses for which UC transfer, CSU GE, or IGETC articulation have been requested, may not be offered to the Skyline College community until all articulation has been obtained. The *Course Start Date* provided below is the earliest a course may be offered; if a course does not receive approval for one or more of the designations being sought, the course start date will be delayed.

Note: Courses for which CSU articulation is requested (for application as either elective or major courses) are approved by our local Curriculum Committee; refer to the Curriculum Committee calendar for course submission deadlines.

Please use the chart below to determine when to submit a course for articulation. When completing the Course Outline of Record (COR) in CurricUNET, the *Course Start Date* should be added to the *Proposed Start Date* field (found under the *Basic Course Information* screen).
