Definition of Terms

- WSCH: Weekly Student Contact Hours are based on the first census week of a Fall term. They do not include second census week data, but they do include all positive attendance data for the term (converted to WSCH) including classes which start after the first census
- FTE: The full-time equivalent faculty count is determined by the set of rules provided to each college at the time the data is requested. Generally, the figures are the decimal fraction of the teaching hours or units ascribed to the faculty member for teaching work done. Non-teaching time is specifically excluded so that it does not affect the value of the data. Work done by non-certified-personnel is not included.
- LOAD: Teaching Load is taken as the ratio of WSCH to FTE
- N GRADES: The total number of grades awarded ($A+B+C+D+F+CR+NCR+I+W$)
- RETENTION: The sum of all non-W grades divided by N grades times 100, expressed as %
- SUCCESS: $A+B+C+CR$ grades divided by N grades times 100, expressed as %

APPENDIX C

FREQUENTLY ASKED QUESTIONS

1. Why are faculty asked to perform Program Review?

Faculty are the members of the campus community who best understand the intricacies of the courses and the body of work within programs. Faculty work each day with students and staff within these programs and are best suited to understand the strengths and needs of specific programs. Because Program Review is also used for budget and planning, it is imperative that faculty perspective is included in that process.

2. How do I know that all the work I put into this document will have any impact?

A well thought through and completed Program Review will have its greatest impact on the program and its faculty/staff. Evaluation of practices, procedures and student outcomes is the hallmark of successful educational programs and institutions. A thoughtful analysis of the results and findings of the Program Review should be used to improve student outcomes. The Curriculum Committee and College Council have developed a process which requires the Program Review to impact the College planning, budget, SLOAC and resource allocation processes.

3. Why the oral presentation to curriculum committee?

The oral presentation of your Program Review serves two purposes. Primarily, it will allow the program exposure to a cross-section of the campus community. Many members of this community are not aware of the accomplishments of programs or their needs. It allows each program to shine! Secondly, it allows the Program Review process to become more personal. Committee members and program personnel will have the opportunity to interact, question each other, and respond to the Program Review. Finally, it will help the College do systematic planning and coordinate our efforts.

4. I am a one-person department – I don't have the capability or time to perform this review.

The Program Review document is completed using a pdf format. This should reduce preparation time. Each Division Dean is also available to assist you in gathering information and preparation of the self-study. Please utilize him or her. Also, keep track of the amount of time spent on the self-study. When submitting your evaluation of the Program Review process, please include the total hours involved in the process. This will help with future planning and modifications to the review process.

5. How will the self-study questions be kept current and useful?

The Curriculum Committee, through the Academic Senate, will have that responsibility.
