ADMJ 205 <i>Judicial Process in Calif.</i>	Spring	Spring 2011	Fall 2011	Spring 2012

The ADMJ Program has six core and six elective courses. Each course has three SLOs and each SLO is assessed by three assessment measures, direct & indirect. One course will be assessed every semester during a 6-year cycle, between Program Reviews. The data will be analyzed in the semester following the course offering, and adjustments made for the next course offering. All three SLOs of a course will be assessed at the same time during the assessment process. The ADMJ Program was last reviewed in October of 2006 and is up for review in October of 2012. All 12 courses will have been assessed and the results and actions reported at the next Program Review. Following the Program Review, the 6-year SLOAC assessment cycle will begin again.
