

LSCI 100: Introduction to Information Research SLOs

Upon completion of the course, students will be able to:

1. Formulate a precisely-worded and appropriately focused research topic.
2. Explain the purpose of and differences among the basic online search tools and be able to select appropriate tools for finding various types of information sources.
3. Conduct effective basic and advanced searches using online search tools in order to locate and retrieve relevant information from books, periodicals, and websites.
4. Evaluate the relevance, quality and credibility of a wide variety of information sources using critical thinking and problem solving skills.
5. Applying correct documentation style, compile a bibliography of various types of information sources on a specific research topic.
