Purpose of Report

This analysis was prepared by the California Community Colleges Chancellor's Office (Chancellor's Office) with support from the:

- Association of California Community College Administrators (ACCCA),
- Association of Chief Business Officials (ACBO), and
- Community College League of California (League).

Its purpose is to provide information about the Governor's January budget proposal as a common resource for each organization's further analyses and advocacy efforts. Over the next several months, updated analyses will describe the proposed trailer bills, the Governor's May Revision, and the enacted budget.

Key Updates

Much of the information contained in this analysis remains unchanged as of the January 10, 2022 version. However, a new section was added that summarizes the Legislative Analyst Office's analysis of the budget proposal, particularly comments related to the budget for the community colleges (see page 23). In addition, updates were made to the following topics in the *Major Policy Decisions* section (beginning on p. 12):

- College Affordability, related to proposals to provide emergency grants to AB 540 students;
- Addressing Student Needs, related to continuing investment in student housing;
- Streamlining Academic Pathways, related to implementing common course numbering, supporting transfer reforms, investing in technology to navigate pathways technology, supporting teacher preparation partnerships, and grants for high-skilled career pathways; and
- Deferred Maintenance efforts.

Summary of Key Budget Changes

Today, Governor Newsom released his budget proposal for the 2022-23 fiscal year. Following are some key changes in the proposal compared to the enacted budget for 2021-22.

- Under the proposal, the overall state budget would be higher than in 2021-22, increasing by about 9% to \$286 billion. General Fund spending would increase by about \$3 billion (1.5%) to \$213 billion.

Figure 1: Proposed 2022-23 budget reflects surplus of more than \$45 billion (dollars in billions).

- The budget proposal for the California Community Colleges is shaped by a multi-year “road map to California’s future” which will be refined in advance of the May Revision. With a focus on equity and student success, the framework builds on existing efforts toward achieving the *Vision for Success* goals, while establishing some additional expectations for the system over the next several years. Key goals and expectations in the road map include increased collaboration across segments and sectors to enhance timely transfer; improved time-to-degree and certificate completion; closure of equity gaps; and better alignment of the system with K-12 and workforce needs.
- The proposed budget for 2022-23 provides about \$1.8 billion in Proposition 98 augmentations over the prior year, including \$842 million (46%) in ongoing spending and \$983 million (54%) in one-time funding.

Figure 2: Majority of new Proposition 98 funding for 2022-23 represents one-time investments (dollars in millions).

- The proposal for additional ongoing spending includes \$409.4 million for a 5.33% cost-of-living adjustment (COLA) for community college apportionments, and \$24.9 million for systemwide enrollment growth of 0.5%. Additional ongoing funds are proposed to augment the Part-Time Faculty Health Insurance Program, cover the added costs for Student Success Completion Grants related to expanded Cal Grant eligibility, and support technology modernization.

Figure 3: Proposed new ongoing investments for 2022-23 include COLAs and PT faculty health insurance (dollars in millions).

- One-time funding proposals are dedicated to deferred maintenance, student retention and enrollment efforts, implementation of common course numbering, technology modernization, and several investments focused on education pathways.

Figure 4: Proposed one-time investments for 2022-23 of \$983 million include deferred maintenance and retention/enrollment strategies (dollars in millions).

^a A portion of the funding for Adult Ed programs goes to community colleges, with the remainder going to K-12.

- The Governor’s proposal includes \$373 million in capital outlay funding from Proposition 51 to support the working drawings and construction phases for 18 continuing projects.
- The proposed budget invests an additional \$1.4 million in state operations to support nine (9) new positions in 2022-23, with ongoing conversations about additional resources to be included in the May Revision. In addition, another \$1.4 million is planned for 2023-24 to support 10 more new positions. The added resources are intended to support modernization efforts and increased state operations capacity to lead the system in achieving its *Vision for Success* goals and other state priorities.

State Budget Overview

The Governor’s Budget proposes additional ongoing resources of approximately \$840 million to California Community Colleges appropriations and categorical programs, as compared to the 2021 Budget Act.

BUDGET FOCUSED ON EQUITABLE RECOVERY FROM THE PANDEMIC

The 2021 Budget Act reflected a correction to the overestimated deficit for the prior year (2020-21) and substantial recovery to the state’s finances following the pandemic-induced recession. It focused investments on supporting California families and businesses that continued to struggle, and made deposits to reserves as protection against the next economic downturn. Some of the main priorities in the Governor’s Budget are aimed at continuing efforts to support pandemic recovery. The proposal includes:

- A \$2.7 billion Emergency Response Package, including a \$1.4 billion emergency appropriation request, to bolster COVID-19 testing, accelerate vaccination efforts, support healthcare workers, and battle misinformation;
- \$1.5 billion over two years to accelerate the development of affordable housing;
- \$1.2 billion to fight and prevent wildfires, including funds for new state fire crews, helicopters, and other equipment;

- \$750 million for drought response, including funds for water conservation and efficiency, replenishing groundwater supplies, and helping farmers; and
- Investments in rural workforce development programs that would assist with climate change response and fire prevention.

Economic and Budget Conditions are Positive

The budget outlook has improved since the 2021 Budget Act, with rapidly growing revenues related to strong growth in retail sales and stock prices. State revenues are higher than predicted by over \$10 billion in 2021-22 compared to estimates in the Budget Act, according to the Legislative Analyst's Office (LAO). Much of the revenue gains have been in sales taxes and income tax withholding, which the LAO notes are historically more stable revenue streams. It notes that lawmakers will have to consider the implications of the State Allocation Limit (SAL or Gann Limit), approved as a constitutional amendment by the voters in 1979 to limit state spending. Absent specific policy decisions to exempt spending from the SAL, half of the revenue above the limit must be returned to the taxpayers with the other half going to K-12 and community colleges.

The Governor's Budget is based on a projected surplus of \$45.7 billion for 2022-23 and nearly \$35 billion in reserves, including \$21 billion in the state's Rainy Day Fund. As expected by the LAO, the Administration estimates that the state will exceed the Gann Limit over the 2020-21 and 2021-22 fiscal years, and intends to include proposals to address the issue in the May Revision

The budget summary notes that the economic forecast used to develop the budget does not consider the surge of the Omicron variant, so the COVID-19 pandemic remains a risk to the forecast. Capital gains revenues are approaching a peak level, and a stock market reversal could lead to a substantial decline in revenues.

Federal Funds Have Continued Impact on the State Budget

The federal government took a number of actions during 2020 and 2021 that continue to have implications for the state budget for 2022-23. The American Rescue Plan (ARP) provided about \$27 billion to the state of California, some of which was used to offset existing General Fund costs. In addition, the ARP included an enhanced federal match for state Medicaid programs (including home and community-based services) through the end of the national public health emergency. Together these actions contributed to state savings during 2020-21 and 2021-22, and to the discretionary surplus for 2022-23.

PROPOSITION 98 ESTIMATE INCREASES

Minimum Guarantee for Community Colleges Increases by 5%

Each year, the state calculates a "minimum guarantee" for school and community college funding based on a set of formulas established in Proposition 98 and related statutes. To determine which formulas to use for a given year, Proposition 98 lays out three main tests that depend upon several inputs including K-12 attendance, per capita personal income, and per capita General Fund revenue. Depending on the values of these inputs, one of the three tests becomes "operative" and determines the minimum guarantee for that year.

The state rarely provides funding above the estimated minimum guarantee for a budget year. As a result, the minimum guarantee determines the total amount of Proposition 98 funding for schools and community colleges. Though these formulas determine total funding, they do not prescribe the distribution of funding within the segments. The Governor and Legislature have significant discretion in allocating funding to various programs and services.

Table 1 shows the budget’s estimates of the minimum guarantee for the prior, current, and budget years. The community college share of Proposition 98 funding is at the traditional share of 10.93% in each of these years. Included in this share is some K-12 funding, including a portion of Adult Education funding, a small amount of pass-through funding for school district-based apprenticeship programs and funding for K-12 Strong Workforce programs.

^a CCC totals include resources that go to the K-12 system via the Adult Education, Apprenticeship, and K-12 Strong Workforce programs.

Estimates for Prior and Current Years Have Increased

Estimates of the minimum guarantee for 2020-21 and 2021-22 have increased substantially compared to projections when the 2021-22 budget was enacted in June of last year, which can occur if school enrollment, economic growth, or state revenues turn out to be different than expected. Specifically, the revised estimates for 2020-21 and 2021-22 are higher than was projected in June because of stronger than expected revenues.

SCFF District Revenue Protections Extended in Modified Form

In response to the disruptions of the COVID-19 pandemic, providing fiscal stability was a top priority. While the temporary protections under the COVID-19 Emergency Conditions

Allowance expire at the end of 2021-22, the 2021 Budget Act extended the Student Centered Funding Formula's (SCFF) existing minimum revenue (hold harmless) provision by one year, through 2024-25. Under this provision, districts will earn at least their 2017-18 total computational revenue, adjusted by COLA each year, if applicable.

The Governor's Budget proposes to extend the revenue protections in a modified form to avoid creating sharp fiscal declines in 2025-26. Under the proposal, a district's Total Computational Revenue (TCR) in 2024-25 funding would represent its new "floor," below which it could not drop. Moving forward, districts would receive no less than they received in 2024-25 and capture increases to formula funding rates.

As outlined in trailer bill, the "floor" for each district would be determined by providing districts the highest of three calculations:

- the SCFF formula as calculated by Base, Supplement and Success, or
- one-year TCR stability as calculated by prior year SCFF formula, or
- the 2024-25 fiscal year maximum TCR.

SCFF funding rates would continue to increase to reflect the statutory COLA. The revised hold harmless provision would no longer automatically include COLA adjustments, as is the case with the current provision in effect through 2024-25.

Predictability & Stability

Provides Districts a Funding Floor That Won't Decrease

2024-25 Funding Floor

The proposal also indicates support for the recommendation made by the Student Centered Funding Formula Oversight Committee to integrate an unduplicated first-generation student metric within the SCFF's supplemental allocation when a reliable data source is available.

Required Transfer to Public School System Stabilization Account (PSSSA)

Proposition 2, approved by voters in November 2014, created the PSSSA, a new state reserve for schools and community colleges. Under Proposition 2, transfers are made to this account only if several conditions are satisfied. That is, the state must have paid off all Proposition 98 debt created before 2014-15, the minimum guarantee must be growing more quickly than per capita personal income, and capital gains revenues must exceed 8% of total revenues.

Though these transfers change *when* the state spends money on schools and community colleges, they do not directly change the *total amount* of state spending for schools and

community colleges across fiscal years. Specifically, required transfers to the PSSSA count toward Proposition 98 totals in the year the transfer is made. As a result, appropriations to schools and community colleges in such a year could be lower than otherwise required by Proposition 98. However, in a year when money is spent out of this reserve, the amount transferred back to schools and community colleges is over and above the Proposition 98 amount otherwise required for that year.

California Community Colleges Funding

The Governor’s Budget includes \$841.5 million in ongoing policy adjustments for the community college system, compared to 2021-22 expenditure levels, as reflected in Table 2. The system would receive approximately \$1.8 billion in additional funding for one-time and ongoing programs and initiatives.

TOTAL CHANGES	\$1,827.3

^a Funding for health care pathways in Adult Ed would be spent over three years.

The estimated and proposed Total Computational Revenue (TCR) for the SCFF increases by \$437.3 million from \$7.9 billion to \$8.4 billion. This reflects a proposed COLA of 5.33% (\$409.4 million) and FTES growth of 0.5% (\$24.9 million) and modified estimates for hold harmless and other underlying estimation factors. Further, the following adjustments are reflected in associated offsetting revenues (all comparisons are from the 2021-22 Budget Act to the 2022-23 Governor’s Budget proposal):

- Property tax revenues are estimated to increase by \$230.5 million from \$3.54 billion to \$3.77 billion.
- Enrollment Fee revenues are estimated to decrease by \$2.6 million from \$441.5 million to \$438.9 million.
- Education Protection Account funding is estimated to increase by \$218.5 million from \$1.37 billion to \$1.58 billion.

Table 3 reflects the final SCFF rates for 2020-21 and 2021-22, along with the projected rates for 2022-23, as modified by COLA and other base adjustments. The distribution of funds across the three allocations (base, supplemental, and student success) is determined by changes in the underlying factors.

Appendix B compares the Governor’s proposed funding adjustments for the system in 2022-23 to the Board of Governors’ budget request. Below we highlight a few of the administration’s more significant policy decisions and related information. Later in this analysis, we detail local funding by program, capital outlay funding, and state operations.

MAJOR POLICY DECISIONS FRAMED AROUND “ROAD MAP TO CALIFORNIA’S FUTURE”

The budget proposal is shaped by a multi-year road map that enhances the system’s ability to prepare students for California’s future, a collaborative plan developed by the Administration and the Chancellor’s Office. With a focus on equity and student success, the framework builds on existing efforts toward achieving the Vision for Success goals, while establishing some additional expectations for the system over the next several years. To fund this collaborative plan, the budget includes additional Proposition 98 resources for the colleges as well as additional resources for the Chancellor’s Office to better support the colleges in meeting the *Vision for Success* goals and newly established expectations. The proposal is made in the context of a goal of achieving 70% postsecondary degree and certificate attainment among working-age Californians by 2030, a recommendation of the Governor’s Council on Post-Secondary Education, which is accompanied by proposals for multi-year compacts with the University of California (UC) and California State University (CSU) along with the road map for the community college system.

Road Map Includes New Goals and Expectations

Key goals and expectations in the road map include increased collaboration across segments and sectors to enhance timely transfer; improved time-to-degree and certificate completion; closure of equity gaps; and better alignment of the system with K-12 and workforce needs.

Higher Expectations for Student Educational Outcomes. The road map seeks to:

- Increase the percentage of students earning degrees, certificates and specific skill sets for in-demand jobs by 20% by 2026;
- Decrease the median units to completion by 15%, and establish systemwide stretch goals regarding the number of students completing or transferring within the minimum amount of time necessary;
- Increase the number of transfers to the UC or CSU in proportion to enrollment growth in those systems; and
- Annually publish, for all colleges, the 2-year associate degree graduation rate and the share of first-time students with sophomore standing when entering their second year, disaggregated for underrepresented and Pell students.

Advancing Equity. The road map intends to:

- Improve systemwide graduation rates, transfer rates, and time to completion among underrepresented and Pell students to meet the average of all students by 2026; and
- Close equity gaps in access to dual enrollment programs.

Expects Increased Intersegmental Collaboration. The road map expects:

- Full participation in the Cradle-to-Career Data System;
- Efforts to adopt a common intersegmental learning management system;
- Collaboration with the UC and CSU on a higher education student success dashboard within the Cradle-to-Career framework to identify and address equity gaps; and
- Efforts to establish an integrated admissions platform common to the UC, CSU and community colleges.

Seeks improved Workforce Preparedness. The road map intends to support workforce preparedness and high-demand career pipelines, including goals to:

- Increase the percentage of K-12 students who graduate with 12 or more college units through dual enrollment by 15%;
- Establish a baseline for credit-for-prior-learning offerings and increase the offerings annually, and launch 10 new direct-assessment competency-based education programs;
- Increase the percentage of completing students who earn a living wage by 15%;
- Focus on establishing or expanding programs that address workforce needs in healthcare, climate response, education and early education; and
- Establish pathways in those fields from high school through university, including development of Associate Degree for Transfer and transfer pathways along with

dual enrollment opportunities that ensure transfer of community college credits toward degree programs.

Apportionments Receive 5.33% COLA and 0.50% Growth

The proposal includes an increase of \$24.9 million ongoing to fund 0.5% enrollment growth and \$409.4 million ongoing to support a 5.33% COLA for apportionments, the same COLA proposed for K-12. Decisions about any COLA were historically made by the Legislature during the annual budget process, but the budget plan in 2019-20 implemented a new policy for the K-12 system's Local Control Funding Formula (LCFF). Under this policy, LCFF receives an automatic COLA unless the minimum guarantee is insufficient to cover the associated costs. In that case, the COLA would be reduced to fit within the guarantee. The statute is silent on community college programs, but the proposed COLA for community colleges for 2022-23 matches that provided for K-12, as was the case in the Enacted Budget for the current year.

College Affordability Efforts Continue

Expands Support for Completion Grants. Related to the 2021 Budget Act's expansion of the Cal Grant entitlement program, the Governor's Budget includes \$100 million **ongoing** for students eligible for the Student Success Completion Grant due to expanded Cal Grant eligibility for community college students.

Provides Emergency Financial Assistance for AB 540 Students. The proposal includes \$20 million **one-time** to support emergency student financial assistance grants to eligible AB 540 students. According to trailer bill language, the chancellor would allocate funds to districts based on the headcount number of students who meet the requirements for an exemption from paying nonresident tuition under §68130.5 of the California Education Code and meet the income criteria applicable to the California Dream Act application. Financial assistance grants could be provided to such students who self-certify that they meet the following conditions:

- Currently enrolled in at least 6 semester units (or the quarterly equivalent);
- Demonstrate an emergency financial aid need; and
- Earned a 2.0 grade point average at their current or prior institution in one of their previous three semester terms (or four quarter terms) OR is a student who is receiving additional support or services through a community college's Disabled Student Programs and Services.

Expands Support for Financial Aid Administration. The budget proposal includes \$10 million **ongoing** to augment resources for community college financial aid offices.

Makes Other Investments in College Affordability. The Governor's Budget includes several other investments in college affordability, including an increase of \$515 million ongoing to support a modified version of the Middle Class Scholarship Program, \$300 million one-time for the Learning-Aligned Employment Program administered by the California Student Aid Commission, and \$10 million for outreach to assist student loan borrowers.

Addressing Student Needs Remains a Concern

Builds on Efforts to Retain and Enroll Students. The budget proposal includes \$150 million in **one-time** funds for student retention and enrollment efforts, building on the \$120 million included in the 2021 Budget Act (\$20 million of which was provided in an Early Action package in 2020-21). The funds are aimed at supporting community college efforts and high-touch strategies to increase student enrollment and retention rates. As with the prior round of funding, the focus is on engaging with former students who may have withdrawn due to the impacts of the pandemic, and connecting with current and prospective students who may be hesitant to enroll in college due to the impacts of COVID-19.

Expands Student Support Programs. The Governor's Budget proposes an increase of \$1.1 million **ongoing** to support the expansion of African American Male Education Network and Development (A2MEND) student charters to additional college districts. It also includes \$10 million ongoing to expand availability of foster youth support services through the NextUp program, seeking to expand the program from 20 to 30 districts. It provides \$179,000 one-time for a study of the Umoja program, to better understand the practices that promote student success for African American students.

Expresses Concern about Learning Disruptions. The budget proposal includes language expressing concern about the disruptions to student learning caused by the pandemic, and the disproportionate impact on underserved student populations. It indicates that districts should strive to meet the needs of their diverse student populations through various instructional modalities, given that some students may be best served by an online course format while others may be better served by in-person courses. The Administration expects districts to aim to offer at least 50% of lecture and laboratory course sections in-person in 2022-23, provided that approach is consistent with the district's student demand and with public health guidelines in place at the time.

Invests in Student Housing. The 2021 Budget Act included \$2 billion in one-time non-Proposition 98 General Funds to create a new fund for student housing at the three higher education segments, to be split over three years with an initial \$500 million included for 2021-22. Of the \$2 billion investment, \$1 billion is intended for affordable student housing projects at California Community Colleges. As planned, the Governor's Budget for 2022-23 includes \$750 million to support these housing grants, and expresses intent to appropriate the final \$750 million in 2023-24.

Streamlining Academic Pathways is an Enduring Priority

Invests in Common Course Numbering. The 2021 Budget Act included \$10 million **one-time** to plan for and begin developing a common course numbering system statewide, as a means of facilitating the alignment of curriculum, easing student course selection, promoting timely program completion, and supporting students who attend multiple colleges and those preparing to transfer. To further support that goal, the Governor's Budget includes \$105 million **one-time** to support systemwide implementation of common course numbering. Trailer bill language indicates that the funds could be used for:

- Aligning existing course curricula to a common course numbering system;
- Updating course catalogs and other digital course registries;
- Supporting faculty costs associate with course differentiation and curriculum approval; and
- Campus communication efforts to inform students of revised course numbers and curricula.

Supports Transfer Reform. Following the passage of AB 928 (Chapter 566, Statutes of 2021), the proposal includes \$65 million **one-time** to implement the bill’s transfer reform provisions. Those provisions require the system to participate in an intersegmental committee charged with oversight of the Associate Degree for Transfer (ADT) and to develop and implement procedures to place students who declare a goal of transfer on the ADT pathway if one exists for their chosen major, unless they opt out. According to trailer bill language, the funds could be used for:

- Reprogramming IT systems to accommodate a singular general education pathway;
- Staff time to revise course catalogs, and college policies and procedures, to accommodate default ADT placement for students declaring a goal of transfer; and
- Updating curriculum management or degree audit platforms.

Invests in Technology to Navigate Pathways. The proposal includes \$25 million **one-time** to facilitate the procurement and implementation of software that clearly maps out intersegmental curricular pathways, in order to help students select a pathway, facilitate streamlined transfer between segments, and reduce excess unit accumulation. It also includes \$100 million (\$75 million **one-time** and \$25 million **ongoing**) to address modernization of technology infrastructure, including sensitive data protection. Trailer bill language specifies that the \$75 million could be used for the following purposes:

- Security upgrades and malware prevention to education technology platforms;
- System enhancements and modernization for the CCCApply system;
- Costs for monitoring and assessment of security risks; and
- Efforts to improve the quality of online and distance education.

Increases Support for Teacher Preparation Partnerships. The Governor’s Budget includes \$5 million **one-time** to support the CCC Teacher Credentialing Partnership Program, created via legislation several years ago (SB 577, Chapter 603, Statutes of 2018). The program provided grants to community colleges in areas of the state with low rates of K-12 credentialed public school teachers to form partnerships with four-year institutions that have approved teacher preparation programs. The grants support the offering of teacher credential coursework remotely at the participating community college as a means of increasing access to teacher credentialing programs in underserved areas of the state.

Trailer bill language specifies that the Chancellor’s Office may award 10 additional grants not to exceed \$500,000 each. The funds are intended for one-time startup costs for the purposes of developing and implementing collaborative teacher credentialing degree programs, including professional development for effective distance learning; cost of

teaching assistants for courses offered via distance learning; technology upgrades for classrooms; student retention, outreach, or engagement; data monitoring and systems infrastructure; cross system alignment; and other startup costs necessary to establish the programs. Programs implemented with the funds must charge no more than the standard tuition and fees of the collaborating universities; utilize courses currently offered by the universities, with current faculty teaching them; and target teachers currently working on short-term or provisional permits. Programs must be accredited by the Commission on Teacher Credentialing's Committee on Accreditation. Students who enroll in the programs must have an opportunity to complete the necessary coursework if the collaborative is terminated.

Supports Grants for High-Skilled Career Pathways. The proposal includes \$20 million **one-time** for a grant program to support public-private partnerships that prepare students in high school and community college for specific high-skill fields, including science, technology, engineering, and mathematics (STEM) fields; health care occupations; and education and early education. The proposal is similar to a grant program funded in 2018-19 for STEM fields, but adds the fields of education, early education, and health care.

According to trailer bill language, the Chancellor's Office would award grants to be expended over a six-year period to applicants that meet certain conditions, including that they:

- Are part of an approved College and Career Access Pathways (CCAP) partnership (with one or more school districts or charter schools, and a community college district);
- Develop a curriculum that leads to an ADT in one of the relevant fields;
- Have students attend classes from grades 9 to 14, inclusive, on a single campus; and
- Establish agreements with private businesses in the relevant field that obligates the businesses to place students who complete the program first in line for a job, to identify a mentor for each participating student, to provide workplace learning opportunities, and to create a skills map for the industry and collaborate with the CCAP partnership to align the curriculum with workplace needs and identify the two-year degree that will meet industry expectations.

The Chancellor's Office would prioritize applications that would serve students who have been identified as academically or economically at risk for not completing high school or not enrolling in college, and who belong to populations that have historically faced barriers to higher education (e.g., students with disabilities or English language learners). The chancellor would award no more than one grant per county. Grant recipients would be required to submit enrollment, performance and employment data, and the chancellor would submit a report to the Administration and legislature on the grant program's activities and student outcomes by January 2029.

Other trailer bill language proposes to eliminate the sunset date for CCAP, and to remove the 10% limit on the number of FTES claimed as special admits.

Invests in Healthcare-Focused Adult Ed Pathways. The budget proposal includes \$130 million **one-time** to support healthcare-focused vocational pathways for English language learners through the Adult Education Program. The funding would be spread across three years (\$30 million in 2022-23, \$50 million in 2023-24, and \$50 million in 2024-25), and be intended to support learners across all levels of English proficiency.

Invests in K-12 Educational Pathways to Workforce and Higher Education. The Governor proposes \$1.5 billion one-time Proposition 98 for K-12 over four years to support the development of high school pathway programs focused on technology (including computer science, green technology, and engineering), health care, education (including early education), and climate-related fields. These programs would focus on developing local partnerships that bring together school systems, higher education institutions, employers, and other partners.

College Workforce and Its Diversity Receives Support

Addresses Needs of Part-Time Faculty. Building on investments in part-time faculty office hours in the 2021 Budget Act, the proposal includes \$200 million **ongoing** to augment the Part-Time Faculty Health Insurance Program as a means of incentivizing districts to expand healthcare coverage for their part-time faculty.

Invests in Diversifying the Workforce. Building on a \$20 million one-time investment in the 2021 Budget Act, the Governor's Budget includes \$10 million **ongoing** to support the sustainable implementation of Equal Employment Opportunity program best practices to diversify community college faculty, staff, and administrators.

Efforts to Address Deferred Maintenance Continue

Building on the \$511 million in one-time funds provided in the 2021 Budget Act, the Governor's Budget includes \$387.6 million **one-time** Proposition 98 funds to address deferred maintenance and energy efficiency projects across the system. Trailer bill language indicates that funds would be available for encumbrance or expenditure until June 30, 2024, and could be used for the following purposes:

- Scheduled maintenance and special repairs of facilities (chancellor may establish a minimum allocation per district for allocation of funds based on actual FTES);
- Hazardous substances abatement, cleanup, and repairs;
- Architectural barrier removal projects that meet federal requirements under the Americans with Disabilities Act and seismic retrofit projects limited to \$929,000; and
- Water conservation projects, to include replacement of water-intensive landscaping, drip or low-flow irrigation systems, building improvements to reduce water usage, or installation of water meters.

Buys Down Pension Liabilities

The Governor's Budget proposes to contribute \$3.5 billion towards state pension liabilities. The payment would reduce state-level pension liabilities. Since the Governor proposes a supplemental payment using Proposition 2 debt repayment funding, the

investment would not directly reduce the CalPERS Schools Pool liability. It is, however, important to note that the projected 2022-23 district employer contribution rates (from the April 2021 CalPERS board actions) are based on a 7% rate of return, which CalPERS exceeded by approximately 14%. This additional gain will be offset by the discount rate change approved at the November 2021 CalPERS meeting. Updated CalPERS actuarial projections, including employer contribution rates, are anticipated in April 2022. Available estimates of the employer contribution rates are as shown in Table C-1 in Appendix C.

LOCAL SUPPORT FUNDING ACROSS PROGRAMS IS STABLE OR INCREASES

Table 4 shows proposed local assistance funding by program for the current and budget years. As the table shows, most categorical programs received level or workload funding in the Governor’s proposal, with certain programs receiving cost-of-living adjustments consistent with recent practices. Decreases in funding are related to removing one-time funding allocated in 2021-22 or to revised estimates of underlying factors.

CAPITAL OUTLAY INVESTMENTS LOWER FOR NOW, BUT MAY INCREASE

The Governor’s proposal includes \$373 million in capital outlay funding from Proposition 51, approved by voters in 2016, down from \$578 million provided in the 2021 Budget Act. The funding is to support the construction phase for 18 continuing projects, as listed in Table 5. Over the next few months, as districts obtain State approval of their Preliminary Plans/Working Drawings package, the Governor’s Budget will likely include them as a continuing project.

STATE OPERATIONS RECEIVES ADDITIONAL FUNDING

The Chancellor’s Office provides leadership and oversight to the system, administers dozens of systemwide programs, and manages day-to-day operations of the system. The office is involved in implementing several recent initiatives including Guided Pathways, basic skills reforms, and a new apportionment funding formula. In addition, the Chancellor’s Office provides technical assistance to districts and conducts regional and statewide professional development activities. The current-year (2021-22) budget provides \$19.7 million in non-Proposition 98 General Fund and \$11.6 million in special funds and reimbursements for Chancellor’s Office operations.

Responding to the Board of Governors’ request for additional capacity to lead the system, the Governor’s Budget includes an initial increase of \$1.4 million ongoing non-Proposition 98 General Funds to support nine (9) new positions at the Chancellor’s Office in 2022-23, with conversations ongoing about the potential for additional state operations resources to be included in the May Revision. In addition, the proposal states an intent to provide an additional \$1.4 million in 2023-24 for 10 more new positions. The new resources are intended to allow the Chancellor’s Office to better support curriculum-related reforms and technology modernization efforts, in addition to increased operational capacity for research, data analysis, legal affairs, governmental relations, and fiscal health monitoring.

Summary of LAO Analysis and Comments

The LAO has expressed skepticism about the Administration’s higher education funding proposals. Its report, *The 2022-23 Budget: Overview of the Governor’s Higher Education Budget Proposals*, cautions the Legislature about the Governor’s development of multi-year budget agreements for the UC and CSU specifically.

While funding for the community colleges is not tied to the Roadmap goals in the same way as to the goals in the compacts for UC and CSU, and has greater alignment to the *Vision for Success*, the LAO makes several points specific to the budget for the community colleges.

- The LAO estimates that the system would need about 40% of the funding generated through the 5.33% COLA to cover higher pension costs as previously provided state pension relief ends, potentially leaving some districts without sufficient resources to cover salary increases at a level sufficient to keep pace with historically high inflation given rising costs for health care, utilities, and other operating costs.
- The proposal to extend district revenue protections ignores enrollment trends, as it would result in all colleges receiving at least as much funding as they received in 2024-25 regardless of the number of students served in future years.
- The Governor's proposals include new programs and activities on top of the considerable number of new programs included in the 2021-22 budget, raising questions about the System's capacity for effective and efficient implementation of additional new activities.

The LAO plans to release a more detailed analysis specific to the budget proposal for community colleges in the coming weeks, but has suggested that the Legislature consider more funding be directed toward deferred maintenance, which could further address the large backlog and has the advantage of being excludable from the SAL.

Appendix A: Overview of the State Budget Process

The Governor and the Legislature adopt a new budget every year. The Constitution requires a balanced budget such that, if proposed expenditures exceed estimated revenues, the Governor is required to recommend changes in the budget. The fiscal year runs from July 1 through June 30.

Governor’s Budget Proposal. The California Constitution requires that the Governor submit a budget to the Legislature by January 10 of each year. The Director of Finance, who functions as the chief financial advisor to the Governor, directs the preparation of the Governor’s Budget. The state’s basic approach is incremental budgeting, estimating first the costs of existing programs and then adjusting those program levels. By law, the chairs of the budget committees in each house of the Legislature—the Senate Budget and Fiscal Review Committee and the Assembly Budget Committee—introduce bills reflecting the Governor’s proposal. These are called budget bills, and the two budget bills are identical at the time they are introduced.

Related Legislation. Some budget changes require that changes be made to existing law. In these cases, separate bills—called “trailer bills”—are considered with the budget. By law, all proposed statutory changes necessary to implement the Governor’s Budget are due to the Legislature by February 1.

Legislative Analyses. Following the release of the Governor’s Budget in January, the LAO begins its analyses of and recommendations on the Governor’s proposals. These analyses, each specific to a budget area (such as higher education) or set of budget proposals (such as transportation proposals), typically are released beginning in mid-January and continuing into March.

Governor’s Revised Proposals. Finance proposes adjustments to the January budget through “spring letters.” Existing law requires Finance to submit most changes to the Legislature by April 1. Existing law requires Finance to submit, by May 14, revised revenue estimates, changes to Proposition 98, and changes to programs budgeted based on enrollment, caseload, and population. For that reason, the May Revision typically includes significant changes for the California Community Colleges budget. Following release of the May Revision, the LAO publishes additional analyses evaluating new and amended proposals.

Legislative Review. The budget committees assign the items in the budget to subcommittees, which are organized by areas of state government (e.g., education). Many subcommittees rely heavily on the LAO analyses in developing their hearing agendas. For each January budget proposal, a subcommittee can adopt, reject, or modify the proposal. Any January proposals not acted on remain in the budget by default. May proposals, in contrast, must be acted on to be included in the budget. In addition to acting on the Governor’s budget proposals, subcommittees also can add their own proposals to the budget.

When a subcommittee completes its actions, it reports its recommendations back to the full committee for approval. Through this process, each house develops a version of the budget that is a modification of the Governor’s January budget proposal.

A budget conference committee is then appointed to resolve differences between the Senate and Assembly versions of the budget. The administration commonly engages with legislative leaders during this time to influence conference committee negotiations. The committee’s report reflecting the budget deal between the houses is then sent to the full houses for approval.

Budget Enactment. Typically, the Governor has 12 days to sign or veto the budget bill. The Governor also has the authority to reduce or eliminate any appropriation included in the budget. Because the budget bill is an urgency measure, the bill takes effect as soon as it is signed.

SEQUENCE OF THE ANNUAL STATE BUDGET PROCESS

Appendix B: Board of Governors' Budget and Legislative Request Compared to Governor's Budget Proposal

Board of Governor's Request	Governor's Budget Proposal
Ongoing Investments	
Foundational Resources. \$500 million for base funding increase.	Provides \$409 million for a COLA of 5.33% and \$25 million for 0.5% enrollment growth.
Students' Equitable Recovery. \$50 million for basic needs, \$20 million to expand NextUp Program, \$2 million for Foster and Kinship Care Education program, unspecified amount to scale the Military Articulation Platform, and funds to cover a 3% augmentation for DSPS and CalWORKS.	Provides \$10 million to expand NextUp.
Diversity, Equity and Inclusion. \$51 million to support districts in connecting hiring practices and procedures to DEI efforts.	Provides \$10 million to support EEO best practices to diversify faculty, staff and administrators.
Support for Faculty and Staff. \$25 million for professional development.	Instead, it provides \$200 million to augment the Part-Time Faculty Health Insurance Program.
Enrollment and Retention Strategies. \$20.3 million to recover from pandemic enrollment declines, particularly among underserved student groups.	See one-time funding provided below.
Technology Capacity to Support Teaching and Learning. \$22 million for district cybersecurity staff, \$9 million for distance education (DE) professional development, \$1.25 million for cybersecurity teams, \$1 million for Ed Tech Portfolio security, \$1 million for DE teaching and learning support, and \$750,000 for CCCApply hosting and maintenance.	Provides \$25 million to address modernization of CCC technology infrastructure (and additional one-time funding described below).
College Affordability and Supports. \$20 million for local financial aid administration.	Provides \$10 million to augment resources for financial aid offices. Also includes \$100 million for students newly eligible for the Student Success Completion Grant due to expanded Cal Grant B/C eligibility.
One-Time Investments	
Students' Equitable Recovery. \$1.1 million to expand A2MEND Student Charters, \$179,000 to study Umoja program elements affecting Black student success.	Provides the requested funding for A2MEND and the Umoja program study. Also includes \$150 million to support high-touch strategies to increase student retention rates and enrollment; \$20 million for emergency grants to AB 540 students; and \$65 million to support implementation of the transfer reform provisions of AB 928.

<p>Diversity, Equity and Inclusion. \$40 million for innovations in colleges’ efforts to implement culturally competent practices.</p>	<p>See ongoing funding above for increased diversity in hiring.</p>
<p>Support for Faculty and Staff. \$100 million to support full-time faculty and \$300 million for part-time faculty.</p>	<p>See ongoing funding described above.</p>
<p>Technology Capacity to Support Teaching and Learning. \$40 million for Ed Tech Portfolio, \$28.5 million for district enrollment security upgrades, \$6.5 million for CCCApply enhancements and modernization.</p>	<p>Provides \$75 million to address modernization of CCC technology infrastructure; \$105 million to support systemwide implementation of common course numbering; and \$25 million for software that maps out intersegmental curricular pathways.</p>
<p>Non-Proposition 98 Investments</p>	
<p>Supporting Institutional Quality and Capacity. \$75 million ongoing for the Physical Plant and Instructional Support program, unspecified ongoing funds to assist in covering increases to CalPERS and CalSTRS, \$150 million one-time for deferred maintenance, \$100 million one-time for Guided Pathways implementation, and \$1.5-\$2.5 million one-time and \$250,000 ongoing to support development of a streamlined reporting process and tool.</p>	<p>Provides \$373 million of Proposition 51 funds for facilities. Also provides \$387.6 million in one-time Proposition 98 funds for deferred maintenance.</p>
<p>Capacity to Support the System. Additional Chancellor’s Office staffing, including 9 Educational Services & Workforce Development positions, 6 Fiscal Services positions, 4 Legal positions, 4 Communications and Governmental Relations positions, and 8 Technology and Research positions.</p>	<p>Provides \$1.4 million ongoing to support nine (9) new positions in 2022-23, and states intention to provide additional \$1.4 million in 2023-24 for another 10 positions.</p>
<p>Students’ Equitable Recovery. Requests (1) policy recommendations from independent research entity on how to ensure guaranteed admission to UC or CSU for transfer students without loss of units; (2) removal of sunset date on CCAP programs; and (3) reauthorization and recasting of EWD program to support a student-centered approach that expands work-based learning.</p>	<p>See one-time Proposition 98 funding for AB 928 implementation above.</p> <p>Removes sunset date on CCAP programs, and removes the 10% limit on the number of FTES claimed as special admits.</p> <p>Extends sunset date of EWD program by 5 years, to January 1, 2028.</p>
<p>College Affordability and Supports. \$500 million one-time and \$50 million ongoing to develop affordable student housing program. Also requests (1) unspecified revenues and statutory authority to ensure equitable student access to books and materials; (2) identification of a dedicated revenue source for increasing Cal Grant amounts for CCC students to address the total cost of attendance; and (3) expanded eligibility for AB 540 nonresident tuition exemption.</p>	<p>See above the ongoing Proposition 98 funding related to Cal Grant eligibility expansion, and the one-time funding for AB 540 students.</p>

BUDGET PLANNING AND FORECASTING

Based on the information used in developing the state budget, it would be reasonable for districts to plan their budgets using information shown in Table C-1 below.

Table C-1: Planning Factors for Proposed 2022-23 Budget

Factor	2020-21	2021-22	2022-23
Cost-of-living adjustment (COLA)	0.00%	5.07%	5.33%

STATE REQUIREMENTS FOR DISTRICT BUDGET APPROVAL

Existing law requires the governing board of each district to adopt an annual budget and financial report that shows proposed expenditures and estimated revenues by specified deadlines. Financial reporting deadlines are shown in Table C-2.

Table C-2: Standard Financial Reporting Deadlines in Place for 2022-23

If the governing board of any district fails to develop a budget as described, the chancellor may withhold any apportionment of state or local money to the district for the current fiscal year until the district makes a proper budget. These penalties are not imposed on a district if the chancellor determines that unique circumstances made it impossible for the district to comply with the provisions or if there were delays in the adoption of the annual state budget.

The total amount proposed for each major classification of expenditures is the maximum amount that may be expended for that classification for the fiscal year. Through a resolution, the governing board may make budget adjustments or authorize transfers from the reserve for contingencies to any classification (with a two-thirds vote) or between classifications (with a majority vote).

STATE REQUIREMENTS RELATED TO EXPENDITURES

State law includes two main requirements for districts' use of apportionments. The Chancellor's Office monitors district compliance with both requirements and annually updates the Board of Governors.

Full-Time Faculty Obligation

Education Code Section 87482.6 recognizes the goal of the Board of Governors that 75% of the hours of credit instruction in the California Community Colleges should be taught by full-time faculty. Each district has a baseline reflecting the number of full-time faculty in 1988-89. Each year, if the Board of Governors determines that adequate funds exist in the budget, districts are required to increase their base number of full-time faculty over the prior year in proportion to the amount of growth in funded credit full-time equivalent students. Funded credit FTES includes emergency conditions allowance protections, such as those approved for fires and for the COVID-19 pandemic. Districts with emergency conditions allowances approved per regulation will not have their full-time faculty obligation reduced for actual reported FTES declines while the protection is in place. The target number of faculty is called the Faculty Obligation Number (FON). An additional increase to the FON is required when the budget includes funds specifically for the purposes of increasing the full-time faculty percentage. The chancellor is required to assess a penalty for a district that does not meet its FON for a given year.

Fifty Percent Law

A second requirement related to budget levels is a statutory requirement that each district spend at least half of its Current Expense of Education each fiscal year for salaries and benefits of classroom instructors. Under existing law, a district may apply for an exemption under limited circumstances.

Appendix D: Districts' Fiscal Health

The Board of Governors has established standards for sound fiscal management and a process to monitor and evaluate the financial health of community college districts. These standards are intended to be progressive, with the focus on prevention and assistance at the initial level and more direct intervention at the highest level.

Under that process, each district is required to regularly report to its governing board the status of the district's financial condition and to submit quarterly reports to the Chancellor's Office three times a year in November, February, and May. Based on these reports, the Chancellor is required to determine if intervention is needed. Specifically, intervention may be necessary if a district's report indicates a high probability that, if trends continue unabated, the district will need an emergency apportionment from the state within three years or that the district is not in compliance with principles of sound fiscal management. The Chancellor's Office's intervention could include, but is not limited to, requiring the submission of additional reports, requiring the district to respond to specific concerns, or directing the district to prepare and adopt a plan for achieving fiscal stability. The Chancellor also could assign a fiscal monitor or special trustee.

The Chancellor's Office believes that the evaluation of fiscal health should not be limited to times of crisis. Accordingly, the Fiscal Forward Portfolio has been implemented to support best practices in governance and continued accreditation, and to provide training and technical assistance to new chief executive officers and chief business officers through personalized desk sessions with Chancellor's Office staff.

The Chancellor's Office's ongoing fiscal health analysis includes review of key financial indicators, results of annual audit reports, and other factors. A primary financial health indicator is the district's unrestricted reserves balance. **The Chancellor's Office recommends that districts adopt policies to maintain sufficient unrestricted reserves with a suggested minimum of two months of general fund operating expenditures or revenues, consistent with Budgeting Best Practices published by the Government Finance Officers Association.**

Districts are strongly encouraged to regularly assess risks to their fiscal health. The Fiscal Crisis and Management Assistance Team has developed a Fiscal Health Risk Analysis for districts as a management tool to evaluate key fiscal indicators that may help measure a district's risk of insolvency in the current and two subsequent fiscal years.

Appendix E: Glossary

Appropriation: Money set apart by legislation for a specific use, with limits in the amount and period during which the expenditure is to be recognized.

Augmentation: An increase to a previously authorized appropriation or allotment.

Bond Funds: Funds used to account for the receipt and disbursement of non-self-liquidating general obligation bond proceeds.

Budget: A plan of operation expressed in terms of financial or other resource requirements for a specific period.

Budget Act (BA): An annual statute authorizing state departments to expend appropriated funds for the purposes stated in the Governor's Budget, amended by the Legislature, and signed by the Governor.

Budget Year (BY): The next state fiscal year, beginning July 1 and ending June 30, for which the Governor's Budget is submitted (i.e., the year following the current fiscal year).

Capital Outlay: Expenditures that result in acquisition or addition of land, planning and construction of new buildings, expansion or modification of existing buildings, or purchase of equipment related to such construction, or a combination of these.

Cost of Living Adjustment (COLA): Increases provided in state-funded programs intended to offset the effects of inflation.

Current Year (CY): The present state fiscal year, beginning July 1 and ending June 30 (in contrast to past or future periods).

Deferrals: Late payments to districts when the state cannot meet its funding obligations. Deferrals allow districts to budget for more money than the state will provide in a given year. A district is permitted to spend as if there is no deferral. Districts typically rely on local reserves or short-term loans (e.g., TRANS) to cover spending for the fiscal year.

Department of Finance (DOF or Finance): A state fiscal control agency. The Director of Finance is appointed by the Governor and serves as the chief fiscal policy advisor.

Education Protection Account (EPA): The Education Protection Account (EPA) was created in November 2012 by Proposition 30, the Schools and Local Public Safety Protection Act of 2012, and amended by Proposition 55 in November 2016. Of the funds in the account, 89 percent is provided to K-12 education and 11 percent to community colleges. These funds are set to expire on December 31, 2030.

Expenditure: Amount of an appropriation spent or used.

Fiscal Year (FY): A 12-month budgeting and accounting period. In California state government, the fiscal year begins July 1 and ends the following June 30.

Fund: A legal budgeting and accounting entity that provides for the segregation of moneys or other resources in the State Treasury for obligations in accordance with specific restrictions or limitations.

General Fund (GF): The predominant fund for financing state operations; used to account for revenues that are not specifically designated by any other fund.

Governor's Budget: The publication the Governor presents to the Legislature by January 10 each year, which includes recommended expenditures and estimates of revenues.

Legislative Analyst's Office (LAO): A nonpartisan office that provides fiscal and policy advice to the Legislature.

Local Assistance: Expenditures made for the support of local government or other locally administered activities.

May Revision: An update to the Governor's Budget presented by Finance to the Legislature by May 14 of each year.

Past Year or Prior Year (PY): The most recently completed state fiscal year, beginning July 1 and ending June 30.

Proposition 98: A section of the California Constitution that, among other provisions, specifies a minimum funding guarantee for schools and community colleges. California Community Colleges typically receive 10.93% of the funds.

Related and Supplemental Instruction (RSI): An organized and systematic form of instruction designed to provide apprentices with knowledge including the theoretical and technical subjects related and supplemental to the skill(s) involved.

Reserve: An amount set aside in a fund to provide for an unanticipated decline in revenue or increase in expenditures.

Revenue: Government income, generally derived from taxes, licenses and fees, and investment earnings, which are appropriated for the payment of public expenses.

State Appropriations Limit (SAL, or Gann limit): The limit on the amount of revenue the state can appropriate each year, based on expenditures in the base year of 1978-79 increased annually by a growth factor that considers economic growth and change in population. Certain capital outlay expenditures are excluded from the limit.

State Operations: Expenditures for the support of state government.

Statute: A law enacted by the Legislature.

Tax and Revenue Anticipation Notes (TRANS): Short-term debt instruments issued in anticipation of taxes or other revenues to be collected at a later date.

Workload Budget: The level of funding needed to support the current cost of already-authorized services.
