9:30 pm					

Lecture is completely online and asynchronous (no class meeting time)

Spring Semester (January – May, 17 weeks)

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Sunday
SURG 446 Clinical Practice for Sterile Processing, 8 units Minimum of 400 hours in a hospital setting						

Clinicals can be scheduled during weekdays, weekends, evenings, and nights. Students are expected to demonstrate flexibility and professionalism at all times. The program only offers 1 clinical site placement per student. A student will not be offered a 2nd site.

Clinical placements are coordinated by the Program's Clinical Coordinator and are based on multiple factors, including academic performance, attendance and professionalism, clinical readiness, and site availability.
