# LEGS Final Project

Bryan Swartout

LEGS Final Project — Bijan Swartout @Skyline

Two commitments:

1. Support the students' learning, not the machine's learning
    a. The polarizing impact of ChatGPT and other Natural Language Processing algorithms
    b. Highlighting innovations on assessment
2. Hosting/facilitating workshops on AI / ML. Some activities to use:
    a. Quick,Draw!
    b. Survival of the Best Fit

LEGS Final Project — Ryan Swartout @Beyond

- Professional Career
  - Continue learning to hold AI/ML (as a discipline) accountable
  - AI/ML also relies on **data**, ensure that the training and test data is vetted through the lens of equity/advocacy
- Activism / Social Interactions
  - Contribute and participate in discussion spaces that empower perspectives that remain critical of the impacts of AI/ML
