

Surgical Technology Program

Reapplication Procedures

Did you complete the application for the Surgical Technology Program last year, but were not accepted into the Program?

If yes, you are considered a reapplicant, and you do not need to complete the entire application again. Please follow these steps:

- 1) Complete only the mandatory (marked with a **red asterisk***) sections of the Surgical Technology Application at <http://skylinecollege.edu/surgicaltechnology/application.php> In the areas where an upload is required, you may upload a short sentence identifying yourself as a re-applicant, or this PDF.
 - 2) Notify the program of your reapplication by emailing the Program Services Coordinator, Alyssa Wong-Conway, at wongconwaya@smccd.edu.
- You will receive confirmation after completing these two steps.
 - We use last year's recommendation letters, so you do not need to obtain more.
 - You will receive one entry into the lottery for each year you have consecutively applied, increasing your chances for acceptance into the cohort.
