I have received the student handbook in paper and/or digital format, read the policies and procedures, and accept that I am responsible for all the information set forth in the Skyline College Surgical Technology Student Handbook.

Student Name: __________________________

Signature: ____________________________ Date: ____________
Welcome to the world of Surgical Technology. This an is exciting, challenging, and rewarding career. In this world, you are a perennial student, learning new procedures and techniques, and meeting new people every day. At worst, it can be stressful, both physically and emotionally. At best, it can be fun and a source of pride as you rise to meet the challenges you will face.

The Healthcare Profession needs people like you, people who are willing to work hard to care for others while braving the risks found in the operating room of today. There can be much satisfaction working in the Healing Arts. We, your instructors, wish to tell you how much we respect you for taking on the responsibilities of this new career.

The Student Handbook is designed to orient you to the Surgical Technology Program and to be a resource throughout the course. Please, study it carefully prior to the first day of instruction. Keep it handy; you never know when you might need the information it contains.

Alice Erskine, MSN, RN, CST, CNOR
Program Director

Jay Olivares, BSN CST
Clinical Coordinator

Program Calendar
2016 – 2017

**Summer 2016**
MEDA 415: Law and Ethics for the Allied Health Professionals
SURG 440: Basic Sciences for Surgical Technology
June 6 First Day of Class
August 10 Final Exam
August 10 - 17 Semester Break

**Fall 2016**
SURG 441: Patient Care Concepts
SURG 451: Surgical Skills Lab
August 17 First Day of Class
September 5 Labor Day Holiday
September 18 – 24 National Surgical Technologist Week
October 12 Flex Day (no Classes)
November 11 Veterans’ Day
November 26 - 27 Thanksgiving Break
December 14 Final Exam

**Spring 2017**
SURG 442: Surgical Specialties
SURG 443: Clinical Practice for Surgical Technology
The ST Program begins early again due to a large amount of academic material.
January 12 First Day of Class (SURG 442)
January 16 Martin Luther King’s Birthday
January 17 First Day of Clinical (SURG 443)
February 17 Lincoln's Birthday (Observed)
February 20 Presidents’ Birthday
March 13 – 17 Spring Break
May 19 Last Day of Clinical
May 24 Final Exam
May 25 Surgical Technology Program Graduation
May 26 College Graduation

**Summer 2017**
SURG 455: CST Examination Preparation
June 12 First Day of Class
June 26 Final Exam
June 30 Certification Exam
Goal Statement
The Surgical Technology Program’s goal is to provide an opportunity to develop the knowledge and skills needed to perform as a competent entry-level surgical technologist in the cognitive, psychomotor, and affective learning domains.

Accreditations
Skyline College is accredited by the Commission for Accreditation of Community and Junior Colleges, 3402 Mendocino Street, Santa Rosa, CA 95403. The Surgical Technology Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Accreditation Review Committee on Education in Surgical Technology.

Commission on Accreditation of Allied Health Education Programs
35 East Wacker Drive, Suite 1970
Chicago, IL 60601-2208
312-553-9355
Skyline College
Surgical Technology Program

Philosophy
To facilitate learning, the following concepts are in practice inside and outside the classroom:

➢ There is no such thing as a stupid question. Chances are, if you have a question, someone else may have the same one. So, ASK IT!

➢ In the OR department, we work as a team. Each student learns differently and can serve as a resource for his/her fellow student. Therefore, we encourage the formation of study groups.

➢ Education is participatory. The responsibility for the learning experience belongs to the student as well as to the instructors.

➢ Learning will take place in an informal atmosphere. Feel free to stop the instructor to ask questions or share information. However, we ask that you respect the rights of any person speaking, student or instructor, by raising your hand before you speak.

➢ Our office doors are always open. If it is not, please wait outside or leave a message on Voice Mail. We will get back to you.

➢ We are both your Instructors and your advisors. Let us know how we can help you meet the course objectives and your professional goals. If necessary, we can refer you to the appropriate office elsewhere at the College.

➢ At the end of the course, the student will have the opportunity to evaluate the instructors.

TEACHING METHODS

➢ Daily review, question and answer period covering the previous day’s assigned reading

➢ Self-instruction modules, written and on computer

➢ Lectures, demonstration, audio-visuals, and class exercises

➢ Clinical skills labs, clinical performance and evaluations
LEARNING METHODS

- Own the responsibility to learn - Participate!
- Be prepared, check the syllabus and course schedule. Read the outline and assigned readings BEFORE the lecture so misconceptions can be cleared up during the lecture. Read each learning objective and check if each one were met. HINT: Objectives are clues to what the exams will cover.
- LISTEN FIRST! Then, take notes: use key words. Avoid writing every word - Summarize.
- Start your own glossary. Write down words or abbreviations you don’t know or circle them while reading. Look them up and add to your glossary. Practice using them when discussing the material with your peers.
- Utilize your classmates for support. Remember, you are all in the same boat.
- Review class notes every night. Remember: every time you READ ABOUT IT, WRITE ABOUT IT, TALK ABOUT IT, you increase your chances of LEARNING IT.
- If you are having a problem with the course material, or your clinical performance, see the instructor immediately.
- Above all, make learning FUN!
Objectives

At completion of the Surgical Technology Program, the graduate shall, at the level of an Advanced-Beginner, be able to:

1. Correlate the knowledge of anatomy, physiology, pathophysiology, and microbiology to the roles and responsibilities of a Surgical Technologist.
2. Recognize the actions and applications of medications used in the perioperative setting.
3. Identify commonly-used equipment and supplies used in the perioperative setting.
4. Apply principles of asepsis to any perioperative event.
5. Demonstrate safe practices according to the standards of professional healthcare organizations with regards to the patient and members of the Surgical Team.
6. Perform competently the skills of a Surgical Technologist.
7. Apply the knowledge and skills of a Surgical Technologist to address the psychosocial needs of a surgical patient.
8. Use legal, moral and ethical principles to evaluate the care of a surgical patient.
9. Acknowledge and value the characteristics of diverse communities.
10. Demonstrate professional attributes of a Surgical Technologist.

Student Learning Outcomes

Upon completion of the program, the student shall be able to:

1. Demonstrate knowledge of surgical technology equal to an entry-level surgical technologist.
2. Demonstrate competence in clinical skills equal to an entry-level surgical technologist.
3. Demonstrate behavior appropriate for an entry-level surgical technologist.
Admission Requirements

PREREQUISITES

➢ Math 110 (Elementary College Algebra)
➢ Biology 250 (Human Anatomy with Lab)
➢ HSCI 484 or BUS 485 (Medical Terminology)
➢ Eligibility for English 846 (Writing Development)

PHYSICAL ABILITIES

➢ Able to stand or sit for 8 hours per day
➢ Able to lift and carry 50 lbs. for 20 feet
➢ Hands and arms free of skin disease
➢ Able to manipulate suture as fine as a human hair either with/without glasses or contacts
➢ Effective verbal communication in English without visual clues

TRANSPORTATION

Reliable transportation to and from the college, clinical site, and field trip assignment is mandatory. Hospital sites can range from a few blocks to 80 miles away from your home depending on the availability. Requests for specific clinical placement will be taken into consideration; however, there is no guarantee this will be possible.

COMPUTER SKILLS

➢ Able to access WebSMART, WebACCESS, and other websites/applications
➢ Use of a computer, laptop, tablet, and/or smartphone with a reliable internet connection
➢ Use of MS Word, MS Excel, and MS PowerPoint
➢ NOTE: Due to revisions to the Core Curriculum by the Association of Surgical Technologists, the student must be able to demonstrate computer skills in order to pass the national Certification Exam.

Program Requirements

**REQUIRED TEXTS**

All textbooks must be purchased prior to the first day of class. Failure to purchase these books will place the student’s standing in the program in jeopardy. Textbooks and software are available at the Skyline Bookstore one week before the first day of class, or on-line at www.amazon.com or other sites.

**SUMMER / SURG 440:**
- Any Medical Dictionary, textbook or software. Examples: Mosby’s, Taber’s, or Dorland’s

**FALL/ SURG 441 & 451:**
- Surgical Technology Laboratory Manual, Olivares, 2016

**SPRING/ SURG 442 & 443:**
- Alexander’s Surgical Procedures, Rothrock & Alexander, 2012, Mosby

**RECOMMENDED TEXTS**

(Available at Amazon.com or www.ast.org)

- Suture and Surgical Hemostasis, Pienik, 2006, Saunders
SUPPLIES

Required:

1. Skyline Scrub Suit (top, pants, hat and patch) for Lab Practice
2. Skyline I.D. Badge with Lanyard
3. Closed Toe Walking Shoes with Leather Uppers (No Sandals or Clogs)

Recommended:

1. Three-Ring Binders, 3”, several
2. College-ruled paper, several packages
3. 3” x 5” Index Cards (For flashcards)
4. Pocket Dividers for Handouts
5. Lunch bag or Cooler

For Clinical:

1. Combination Lock for Locker at Clinical site
2. Support Hose for Men or Women (Available at most drug stores)
3. Pocket notebook, 4” x 5”, for Clinical notes
Program Outline

MEDA 415: Law and Ethics for the Allied Health Professionals

I. Overview of Medical Law, Ethics, and Bioethics

II. The U.S. Legal System
   A. Legal Terminology
   B. Legal Concepts and Doctrines
   C. Classifications of Law

III. Legal System for Healthcare Professionals
   A. Medical and Nursing Practice Acts
   B. Standard of Care
   C. Negligence
   D. Scope of Practice

Skyline College
Surgical Technology Program

Resources

Allied Health Learning Center (Room 7211): FREE Tutoring! By appointment in the learning center. Schedule is subject to change and will be posted in the beginning of the semester. Computers, books, CDs, & online resources are available for Surgical Technology students by permission only.

Skyline Library and Interlibrary Loan System (Building 5)

Skyline Learning Center (Building 5): FREE! Tutoring in Math, English, Reading, Writing, Test-taking Skills, Study Skills

Association of Surgical Technologists: scholarships, professional development, and publications (www.ast.org)

Association of periOperative Registered Nurses: (www.aorn.org)

“The best resources in the universe can only help if you utilize them”

DAY CARE

The Children’s Center offers daycare to low income families from 7:30 am to 5:00 pm. Children must be 18 months or older and the parent must show proof of financial need. The Center is located behind the Loma Chica School, on the north side of the college campus. For more information, call 650-359-8637. Places fill up quickly, so call as soon as possible.

DISABLED STUDENTS

In coordination with the Disabled Students Program, reasonable accommodation shall be provided to any student deemed qualified by the DSP office. This includes learning disabilities as well as physical disabilities. If a student has special needs, s/he must see the Instructor on or before the first day of class to submit an accommodation letter and to discuss these needs. To obtain more information, the DSP office number is 650-738-4280.

COUNSELING

Students may find trying to balance work, school, and family a daunting task. The demands of vocational training can place stress on anyone. People seek counseling for a variety of issues: careers, class work, finances, anxiety, and problems with instructors.

Smart People Ask for Help. Be Smart Call: 650-738-4459
Policies and Procedures

ACADEMIC INTEGRITY

Plagiarism is defined as copying another’s work, or taking text from another source and passing it off as one’s own work. Cheating is defined as copying answers from another student’s test or obtaining answers from another resource during a test, or changing answers after the grading of a test. The work you submit must be your own. The Skyline College Student Handbook has a complete statement defining cheating and plagiarism. If you are caught cheating, you will receive a zero on the test and must report to the Supervisor of the Allied Health Programs. If there is a second incident, you will be subject to disciplinary action including possible suspension or dismissal from the Program.

ASSIGNMENT OF CLINICAL SITE

The clinical coordinator will assign students according to each student’s academic performance (attendance, grades, and professional demeanor). The location of the facility, time of shifts, and personnel assigned are not guaranteed. Negotiations of assignments are prohibited. A clinical assignment may be rescinded or modified at any time. The clinical coordinator will make an effort to obtain a placement within a 50-mile radius of the student’s home. Refusal of an assignment for any reason will result in the loss of the student’s priority. If a clinical assignment is not completed by the end of the Spring semester, the student will receive a grade of “Incomplete” and will be offered an opportunity in the Summer semester if there are sites available and personnel willing to supervise as clinical instructors. The student who refuses an assignment and/or fails to begin their training by the end of the Spring, will receive a grade of “No Pass.” Any student who is unable to complete their training by the end of the Summer, will receive a grade of “Incomplete” and will have to return the following year the course is offered (see Returning Student).
ATTENDANCE

Attendance is mandatory. This includes arriving to class and the clinical site on the scheduled time, in appropriate attire, and prepared to report for duty. Regular attendance in class and clinical is an obligation assumed by every student at the time of registration.

ABSENCEs

Tardiness x3 = 1 absence
Absences x3 = verbal warning
Absences x5 = verbal warning, written warning, deduction of points from grade
Absences x7 = disciplinary action including but not limited to being dropped from the course and dismissal from the program.

College policy states: "When repeated absences place the probability of the student’s success in doubt, the professor may drop such a student from the course." Absence means non-attendance for any reason. This is an intensive vocational training program in which information regarding the care of human lives is offered at every class. Any absence may put the student's chance of success at risk.

"It is the prerogative of the professor to determine when absences are excessive."

<table>
<thead>
<tr>
<th>Semester</th>
<th>Allowance</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summer</td>
<td>Three (3) absences are allowed.</td>
</tr>
<tr>
<td>Fall</td>
<td>Five (5) absences are allowed.</td>
</tr>
<tr>
<td>Spring</td>
<td>Three (3) absences per clinical rotation are allowed.</td>
</tr>
</tbody>
</table>

***For every day absent over the limit, the student will have five (5) PERCENTAGE POINTS subtracted from the Final grade for the semester.***

NOTE: If the hospital management finds the absenteeism of the student to be excessive, they may request that the student be removed from training. There is no assurance that another clinical site can be obtained for the student. Therefore, the student may be subjected to disciplinary action including possible dismissal from the program.
TARDINESS
Frequent tardiness is seen by O.R. managers as unprofessional and can cost a Surgical Technologist his/her job. Therefore, every class day, the student is expected to sign in on the attendance sheet by 8:00 a.m. Every clinical day, the student will be expected to document their hours on a Time Card that will be signed daily by the Operating Room Nurse Manager or Charge Nurse. Time cards are turned into the Instructor on a weekly basis. Three (3) occurrences of tardiness is an equivalent of one (1) absence.
NOTE: For excessive tardiness and/or failure to notify the Program office BEFORE the start time of Class or Clinical days, the student will have five (5) PERCENTAGE POINTS subtracted from the next class test. As with any unprofessional behavior, the student will be counseled. If the pattern continues, the student may fail the program.
NOTE: O.R. managers routinely review a student’s attendance record before a student is considered for clinical placement.

NOTIFICATION PROCEDURE
If, for any reason, the student finds that s/he will be late or absent from class or the clinical site, said student is expected to:
1. Keep office/cell numbers of the Instructors and Clinical sites with him/her at all times.
2. Call the office phone or cell number of the Instructors and the Clinical site BEFORE the start of class or the Clinical day and leave a message.
3. Whenever possible, give several days’ notice prior to the absence in writing. Do NOT email the office the day of the absence. O.R. Nurse Managers do not have time to check the email for absent workers. Neither does the Instructor.

LEAVE OF ABSENCE
For leave of absence (LOA) of greater than a week, the student must request a Leave-of-Absence in writing from the Program Director. Personal Leaves are granted on a case-by-case basis. For Medical Leaves-of-Absence, a letter from the student’s physician must accompany the request. The letter must describe the malady and the estimated length of time
the student is unable to attend school. Prior to his/her return from a Medical Leave-of-Absence, the student must submit a statement from the physician verifying that the student still meets the physical requirements for training in this program. Leaves are granted according to the following and must meet all of the following requirements:

1) Student’s academic standing and clinical performance are acceptable and the
2) Leave will not place the student’s standing at risk and the
3) Malady does not pose a long-term risk to the student working in the O.R.

Note: If the request is made during SURG 440 & 441 the Instructor may exercise the policy for Excessive Absences (See “Attendance”) and withdraw the student. If the request is made during SURG 443, the Instructor may require the student to make up the time with Extended Training at the Clinical Site or at another site at a later date. The student will receive an Incomplete on his or her records until such time as the required hours are completed.

**BACKGROUND CHECKS/DRUG SCREENING**

Due to increased security at hospitals across the nation, the program requires all candidates for this program to submit to a Background Check and Drug Screening. Applications for this service are mailed to the program candidates who must assume the fee of $98.00. (Note: This service requires the student to submit his/ her Social Security number.) Should there be any criminal history or a positive drug screen, the Program Director, Allied Health Director, the Division Dean and the Vice Chancellor of Human Resources will review the results. The student will be advised as to his or her status in the program. Be advised that the ingestion of controlled substances such as mood regulators, muscle relaxants, and narcotic analgesics place the student and his or her patient at risk of injury. If a student must take any of these medications for health reasons, they will not be allowed to train in the hospital until they can pass a new Drug Screening. The Background Check and Drug Screening must be completed prior to admission to the first day of SURG 440 in June. If this is not completed by the deadline, the first person on the waiting list will be accepted.
CHANGE OF ADDRESS

It is the responsibility of the student to notify Skyline College and the S.T. Program Director, in writing, of a change of address, telephone number or email address.

COMMUNICATION DEVICES

Cell phones are to be TURNED OFF in the classroom. The student may answer the cell phone only during a break. Electronic devices are NOT to be used during testing. If a cell phone goes off during a lecture or lab, the student responsible will be required to pay a small fee to the Surgical Technology Club. The school is not responsible for the loss of or damage to laptops or other electronic devices.

COURSE SYLLABUS

The Syllabus (or Class Schedule) provides the student with the following information: the date, content of the day’s lecture or clinical lab, tests, AV’s, speaker, location, and required reading. The class schedule may be subject to change with a 24-hour verbal/written notice. Therefore, it is the student’s responsibility to keep the Syllabus at hand and refer to it daily. Readings assigned for a class must be read PRIOR to that class.

DISMISSAL POLICY

Violation of any policies set forth in the Surgical Technology Student Handbook and/or Skyline College Catalog will first result in a verbal counseling. If a second counseling is required, the Student and the Instructor will meet with the Supervisor of Allied Health Programs to determine disciplinary action. A written contract of expected behavior or performance may be drawn up and signed by the student. A copy will be placed in the student’s records and a copy will be given to the student. The student shall be placed on probation until the performance criteria, as written in the contract, have been met. Failure to meet the written behavior or performance criteria may be cause for dismissal. The student will be informed in person and in writing of the reasons for his/her dismissal.
Skyline College
Surgical Technology Program

DRESS CODE

Students are expected to appear neat and professional at all times in class as well as at the clinical sites. Each clinical site could be a future site of employment or a source for a letter of reference. As representatives of the college and ST program, students are advised to dress accordingly.

- In lab, students are required to wear the Skyline scrub suit uniform (top, pants, and hat)
- In the clinical site, the student shall wear a hospital-provided scrub suit according to the policy of the institution.
- The student is to wear the Skyline College ID badge on the scrub suit while on the hospital premises.
- For the safety of the student, jewelry and valuables are to be left at home. No jewelry is to be worn in the OR.
- Contact lenses may be worn. For surgical procedures where hazardous fumes may affect contact lenses, regular glasses must be worn.
- Protective eyewear must be worn while the student is scrubbed in addition to eyeglasses.
- No nail polish or artificial nails shall be worn.
- Walking shoes shall be worn in the OR. Clogs, sandals, and backless shoes are considered unsafe and should not be worn.
- Students (both male and female) are encouraged to wear some type of support hose under scrubs to decrease discomfort and increase endurance.
- Any scented lotions and strong perfumes should be avoided due to sensitivity and allergies of other patients and staff.
- At the Clinical site, student cell phones and other electronics are not allowed in the O.R.
Skyline College
Surgical Technology Program

HOURS & LOCATION

Summer:
MEDA 415: Mon, Wed. 12:00 pm – 2:00 pm
SURG 440: Mon., Tues., Wed., Thur. 8:00 – 11:30 am
Class starts on the hour, just like in the O.R. These hours included a 15-minute break.

Fall:
SURG 441: Mon., Tues., Wed., Thur. 8:00 – 11:30 am*
SURG 451: Mon., Tues., Wed., Thur. 12:00 – 2:00 pm**
* There is one 15-minute break in the a.m. and one in the p.m. Lunch is 30-minutes.
** Note the hours posted in the College Catalog reads: “Plus 3 hours per week by arrangement.” These are additional required hours to practice skills during open lab.

Spring:
SURG 442: Wed. 8:00 – 2:00 pm*
SURG 443: Mon., Tues., Thurs., Fri. 7:00 – 3:30 pm (or by arrangement) **
* These hours include two 15-minute breaks and a 30-minute lunch.
** These hours are arranged by the clinical coordinator and facility; they are also subject to change.

Summer:
SURG 880: Mon., Tues., Wed., Thurs. 5:00 – 8:30 pm
* This review course is only 2 weeks in length.

Most lectures are held in the Surgical Careers Center, Building 7, Room 205 on the Skyline College campus, 3300 College Drive in San Bruno unless otherwise noted on the Syllabus. An off-campus field trip assignment may be required and located in one of our Bay Area hospital affiliates. The wise student checks the Syllabus daily for the location of the classes and for reading assignments. Various hospital sites across the San Francisco Bay Area (and beyond) are utilized for Clinical Experience such as Seton, Peninsula, Stanford, Kaisers, Santa Clara Valley, SF General and others. Therefore, reliable transportation is mandatory.
Grading Policy

Grading Scale

<table>
<thead>
<tr>

<td>F</td>
<td>NP</td>
</tr>
</tbody>
</table>

* Only SURG 451 and SURG 880 can be taken for a grade of P/NP.

**This scale was set by the Surgical Technology Program Advisory Board. The guiding principle of the Board is that every patient deserves a surgical technologist who is at least Average or above. Therefore, a student with a “D” GPA will not graduate from this program.

</tbody>
</table>

Each semester, the student achieves points from quizzes, assignments and the Final Exam. For Example: SURG 440: There are 13 quizzes and assignments worth 100 points each. The quiz with the lowest score is automatically dropped. Total points possible for Quizzes and Assignments per semester = 1200. This is used to obtain an average. For example, 1080 points divided by 12 quizzes and assignments = 90% grade average. Multiply this by the WEIGHT of the Quizzes and Assignments (60% of the semester grade) and the student has earned 54 points. If the student scored an 85% on the Final Exam, this is multiplied by the WEIGHT of the Final (40% of the semester grade) or 34 points. Thus 54 + 34 = Final grade of 88%.

Please note: Surgical Technology students are expected to behave in a professional manner. This means using effective communication, meeting deadlines and due dates, treating others with respect, and maintaining an excellent attendance record. To reinforce this behavior, points are subtracted from the student’s grades if unprofessional behavior is
exhibited. Therefore, for every violation of any of the policies regarding behavior or attendance published in this handbook, the student shall lose five (5) points from the semester total. For further discussion of Professionalism, see Page 35.

INCOMPLETES
A grade of Incomplete is given only if the student has not completed his or her SURG 443 Clinical Hours. It is granted on a case-by-case basis according to the rules stated in the Leave of Absence policy (See Page 21). Completion of Extended Training is not to exceed one semester past the graduation date of the class. The Instructor must receive in writing an agreement from the Clinical site verifying their permission to allow the student to extend his/her training. Upon completion of the Extended Training, the Instructor will submit a Change-of-Grade request with Admissions and Records to remove the Incomplete. The graduate will then receive his/her Certificate of Completion.

QUIZZES AND FINAL EXAMS
Quizzes and final exams are worth 100 points each. Students use a Scantron form and a #2 pencil. All tests are timed. No one may enter the classroom once a test has begun. After the quiz has been corrected, the Scantron is returned to the student for a review. The scores for the tests and assignments are averaged together. The lowest score is automatically dropped. Then, the total points are divided by the number of potential scores minus one. The points earned are obtained by multiplying the semester average by the percentage value for Quizzes and Assignments as stated above.

If a test exam has been missed for any reason, the student must make arrangements with the Instructor to take the quiz within 5 class days after his/her return or s/he will forfeit the grade. The Final Exams are comprehensive covering all subject areas for the semester.

WRITING ASSIGNMENTS (MEDA 415, SURG 440, SURG 441, SURG 455)
Assignments are worth 100 points each. Papers must be typed, with correct spelling and in the student’s own words. Assignments submitted after their due date will be marked down 5 points each day they are overdue.
1. Pharmacology: Student is to prepare a report on an assigned Medication. The written report is submitted to the Instructor and presented to class.

2. Medical Terminology: Student is to translate into laymen's terms an assigned excerpt from a nursing textbook. Submitted and presented to class.

**GRADUATION**

A student who completes the General Education Requirements to obtain an Associate’s Degree in Surgical Technology is invited to the College Graduation Ceremonies. Advising on obtaining an Associate’s Degree will be made available to the student in the Fall semester. At any time, the student may make an appointment with a college counselor to discuss his or her status.

**GRADUATION CEREMONY**

The graduating surgical technologists may choose to celebrate GRADUATION on the college campus in a manner in keeping with the college rules and in respect for the profession of surgical technologists. This may include a semi-formal ceremony with a presentation of certificates. Another option is an informal luncheon off campus. Arrangements for the graduation will be discussed at meetings of the Surgical Technology Club.

**CERTIFICATES OF COMPLETION**

Upon graduation, the student will receive a Certificate of Completion from the Admissions and Records Department, and a Letter of Recommendation from the Program Director. It is suggested the graduate bring these documents, along with the Final Clinical Evaluation, the Skills Checklist and the Case Tracking Log to any job interview. Job Placement services may be offered through the Counseling Department.
GRIEVANCE PROCEDURE

Should a student disagree with any policy or decision regarding his/her status in the program, s/he may initiate the following procedure for filing a grievance:

**Step 1:** The grievance shall be presented in writing to the Instructor and the Supervisor of Allied Health Programs within thirty (30) calendar days after the date on which it arises. The Instructor shall reply in writing within seven (7) calendar days after receipt of the grievance.

**Step 2:** If the grievance is not resolved at Step 1, the student must then submit the written grievance to the Dean of Math/Science and Technology within seven (7) calendar days after the presentation of the Instructor's reply. The dispute is then handled by the college's grievance procedure. (See the Skyline College Student Handbook).

HEALTH POLICY

APPOINTMENTS

Doctor, dental or other appointments should be made after class or clinical hours. If, under extenuating circumstances, the student must attend an appointment during class hours, the student is expected to notify the Instructor, in writing, prior to making the appointment. NOTE: The student will be training in a Healthcare facility. Therefore, if the student presents with contagious symptoms, s/he is strongly advised to stay home and rest. Examples of contagious symptoms include:

- Fever greater than 100° F
- Excessive cold symptoms (drippy nose and eyes, sneezing)
- Skin eruptions, or recent and/or draining wounds on hands or arms.

If the student is experiencing pain for which over-the-counter medications are ineffective, the student must see a physician and report to the Instructor. The student may NOT train at the Clinical site if he or she must take a controlled substance for pain relief.

Conditions that prevent the student from training at the Clinical Site:

1. An injury that leaves an open or draining wound
2. Pain that must be treated by a Controlled substance (ex: Vicodin, Demerol, etc) The student may return to training when the wound has formed a scab or the pain medication is no longer needed. A Dr.’s clearance will be required before the student is allowed to return to training. (See Attendance Policy)

HEALTH SCREENINGS

Prior to entry into SURG 443, every student must pass a Physical Exam and Immunization Screening. Required screenings include all of the following:

1. Proof of Immunity to:
   - Hepatitis B
   - Measles, Mumps, Rubella (MMR)
   - Varicella
   - Tetanus, Diphtheria, Pertussis (TDAP)

NOTE: “Proof” means a blood test (titer) showing immunity.

2. Tuberculosis (TB) clearance by either Two PPD Tests results or QuantiFERON, or chest X-ray.

3. Documented Seasonal Influenza vaccination

HEPATITIS B VACCINATION

The Hep. B immunization series consists of one shot followed in one month by the second shot, followed by the third shot six months later. The student must then obtain a titer (or test) to determine if s/he is “seropositive” (immune). If, after receiving the vaccine series, the student fails to seroconvert from negative to positive, s/he must receive a “booster” and have another titer drawn. If, after the booster, s/he is still not considered immune, the student shall receive counseling by the Instructor about his/her risks working in an O.R. If the student accepts these risks, s/he will be asked to complete a waiver form. A copy shall be placed in the student’s record and a copy is given to the student.

SEASONAL INFLUENZA VACCINE
Every year a different version of the Influenza ("Flu") Virus is identified for which Healthcare providers must be immunized. The Student may use the services of his or her own personal physician or use the services offered at the Skyline College Health Center. (See below)

Skyline College Health Center Services Building 2, Room 2209, 650-738-4270.

**INSURANCE**

The San Mateo Community College District maintains professional liability coverage for students participating in the Allied Health occupation programs. In case of injury due to on the job training, the student is also considered an “Employee” of the College District and is, therefore, entitled to Workers’ Compensation benefits.

**JOB FAIR**

Annually, the job market in the Greater Bay Area is surveyed to assess the need for the Surgical Technology Program. This information is shared with the students. Additional services are available through the Counseling Department.
At the end of the Final semester, the Program sponsors a Job Fair. At the Job Fair, the students are introduced to recruiters from interested hospitals. Attendance is **mandatory**. (For every Employer interview the student documents at the Job Fair, s/he will receive 2 Extra Credit points). A few weeks before the Job Fair, the students will attend a class on Interviewing Skills and Resume Writing taught by a Career Counselor. The class also advises on dressing for success. For writing a resume, the student can receive 5 Extra Credit points. Extra Credit points are added to the Quizzes scores.

**JURY DUTY**

If a student receives a summons for Jury Duty from a Municipal or Superior Court, that student may be excused due to the fact s/he is in a Vocational Training Program. Please see the Instructor for a letter asking for a delay in the assignment until after graduation.

**LATEX ALLERGY**

Be advised that a large number of products used in the Operating Room contain latex and that working in this environment places the person sensitive to latex at great risk. If it is found that a student is sensitive to latex products, the student must be evaluated by an allergist familiar with the protocols of the Centers for Disease Control and Prevention. The student shall be counseled by the Instructors and provided with a list of products containing latex and their alternatives. A Clinical Site must be found that can make accommodations such that the student’s health would not be at risk while training. If a site cannot be found that can accommodate the latex-allergic student, she or he will not be able to complete the program.

**NATIONAL CERTIFICATION EXAM**

There are three agencies that offer national credentials for the Surgical Technologist. However, the Association of Surgical Technologists recognizes only the National Board for Surgical Technologists and Surgical Assistants (NBSTSA). The NBSTSA has very strict rules for eligibility: The applicant must have graduated from a formal program which includes
many hours of hands-on training, and said program must be accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). CAAHEP is affiliated with and supervised by the American Medical Association. The Skyline College Surgical Technology Program has been accredited by CAAHEP since 2000.

PREPARATION FOR CERTIFICATION EXAM
SURG 455 is an intensive review and prep course offered at the end of the program to prepare the class for the National Certification Exam. The class includes a discussion of the cost, application to and eligibility for the exam. The class will also cover test-taking techniques, and assessments. Several noted Preparation texts will be reviewed.

RESOURCES FOR PREPARATION
- Surgical Technology Exam Review, 3rd Edition, Rogers, Boegli, & LaRue, 2013, Pearson
  *This resource is provided as part of the Gold Student Membership Bundle from the Association of Surgical Technologists. (See Page 36)

OFFICE FACILITIES
The office tools and kitchen appliances are available for student use. The VCR and LCD projector may be used by permission only. There are computers specifically for the use of students located in The Allied Health Learning Center, Room 7211. There are also computers available in Building 6 and in the College Library in building 5.
PROFESSIONALISM

A student in this program is under constant observation by healthcare professionals, patients, and visitors both at the College and at the Clinical Site. Failure to comply with the following rules of behavior may be grounds for dismissal from the program. The student is expected to

1. Abide by the policies of the program as defined in this handbook.
2. Attend all classes and clinical days.
3. Be prompt and prepared to all learning sites, class and clinical.
4. Keep the Instructors and the Clinical Site managers informed as to absence/ tardiness
5. Arrive at each learning site prepared to learn, assigned reading is completed, the student has materials for taking notes, and the student is dressed appropriately.
6. Submit assigned course work or required documentation on its due date.
7. Treat all persons and property with respect.
8. Observe the privacy and confidentiality of all persons.
9. Participate in class discussions and in team projects.
10. Accept constructive criticism to improve skills

The following is a list of behaviors that constitute as unprofessional and disruptive. Be Advised: Hospitals may fire an employee who exhibits any of the behaviors listed below. A student shall be subject to disciplinary action including possible dismissal for any of these behaviors including but not limited to:

1. Frequent absences and/or tardiness.
2. Failure to submit documentation on time, or falsifying documentation.
3. Abusive, lewd, foul, or threatening behavior to patients, other students, faculty, or clinical staff members
4. Student was observed to be under the influence of drugs or alcohol.
5. Student was observed committing plagiarism, or cheating, or stealing.
6. Student was observed deliberately damaging College or Hospital property.
PROFESSIONAL AFFILIATION

Students are expected to join the professional organization: Association of Surgical Technologists, Inc. Student membership fee is usually $45.00. Benefits include:

- The Surgical Technologist journal (12-month subscription)
- Lower registration for the national Certification Exam
- Lower registration fees for the national conference
- Low-cost malpractice insurance
- A voice in the national and local policies affecting the Surg. Tech. Profession

***Students will be asked to purchase the Gold Student Bundle for $247.00 which includes the membership fee, the National Certification Exam fee, and the cost of the Exam Study Guide.

RETURNING STUDENTS

A student who is unsuccessful due to academic or nonacademic reasons and wishes to return to the program will be considered for re-entry on the basis of the following merits:

1. The student’s academic standing, attendance, clinical skills, attitude and behaviors during his or her involvement with the program.
2. Clear reasoning for the student leaving the program including academic, finances, job schedule, home, and family issues.
3. Resolution or the potential for resolution of the reason(s) for leaving the program.
4. Development of a Student Success Plan in order for the student to be considered for re-admission. Resources to help develop this plan may include but are not limited to, academic support, financial aid, academic or personal Counseling, or consultation with the Disability Resource Center as it is applied case by case basis.
5. The faculty and clinical instructor’s judgment on the student’s potential to successfully complete the classroom and clinical phase of the training.
6. The availability of space and resources in the program.
The decision to allow the student to re-enter the Program shall be at the discretion of the Program Director after consultation with the Director of the Allied Health Programs and the Dean of Math, Science and Technology Division.

The Student Success Plan will be developed in collaboration with program faculty and academic counselor. The student will be notified once the decision has been made and the process for re-entry will be discussed. This will include:

- Review of deficiencies in student performance to stop out within program
- Student success plan strategies including resources to support successfully completion
- Point of re-entry and specific preparation and/or academic/skills demonstrations
- Student responsibilities in carrying out plan

Student will notify Program Director of intention to re-enter program during open application period for subsequent cohort (January 15-April 1). Student will be notified of official re-entry following normal admissions procedures. Student will be expected to attend new cohort orientation and resubmit/update any requested admissions requirements (background check, drug test, physical, and immunization documentation).

The student is responsible for meeting expectations of the plan and will make regular contact with the academic counselor. The Program Director is responsible for monitoring the plan and to assist the student with resources to promote success. If at any given time the Student is non-compliant with the plan, an early alert will be sent activating further student support systems available at Skyline College.

**SURGICAL TECHNOLOGY CLUB**

The ST Club is one of several clubs on the college campus. Each Club is required to create and abide by a constitution, elect officers, and create and administer a budget. The ST Club has no dues, but monies are available through the Skyline Organization and Club Council (S.O.C.C.) part of the Student Activities Office. The club members may also engage in fundraising activities according to rules of the S.O.C.C. Monies can be used to fund club
outings, activities to honor Surgical Technologist Week (September), and for the Graduation ceremony.

**SMOKING**

Skyline College is a NON-SMOKING campus. Smoking is prohibited inside healthcare buildings (hospitals and clinics).

**STRESS AND THE SURGICAL TECHNOLOGY STUDENT**

This course is extremely stressful mentally, physically, and emotionally. Stress has been known to lead to illness and injury. To reduce or prevent the effects of stress, the student is strongly encouraged to adopt the following recommendations:

- **REST** - 6 to 8 hours a night. Stress places an increased demand on the energy reserve.
- **EXERCISE** - 20 minutes of aerobic activity 3 times a week. This helps in three ways: 1) relieves nervous tension; 2) increases strength and endurance needed in the O.R.; and 3) promotes a restful sleep pattern. Simple walking is an aerobic activity.
- **NUTRITION** – 3 healthful meals a day, especially Breakfast, to replenish the energy stores tapped by stress. Actuarial research shows that 75% of all industrial accidents happen to people who do not eat breakfast!
- **DRUGS** - Alcohol, caffeine, nicotine and others stress the body and interfere with a restful sleeping pattern. Avoid them.

The student will be practicing in a HIGH RISK ENVIRONMENT, caring for HUMAN LIVES. The Surgical Technology student is, therefore, obligated to obtain adequate rest and nutrition to meet the demands of their practice.

WORKER’S COMPENSATION

POLICY AND PROCEDURE FOR STUDENTS INJURED AT THE COLLEGE

If a student becomes ill or is injured while in class s/he should:

1. Report the incident to the Instructor of the Surgical Technology Program.
2. Obtain treatment at the Health Center.
3. File an Incident Report with the Instructor within 24 hours of the incident.

POLICY FOR INJURIES OR EXPOSED TO BODY SUBSTANCES AT CLINICAL ROTATION SITE

Definitions: “Body Substances” include tissue and/or body fluids, especially blood and fluids contaminated with blood. “Exposure” means the substance contacted bare or broken skin and/or mucous membranes. The student should:

1. Immediately report accident, injury, needle stick, splash, or other exposure to body substances. Report to the Instructor of the Surgical Technologist program and the O.R. Nurse Manager or Charge Nurse.
2. Follow the Hospital’s protocol for employees regarding accidents or body substance exposures.
   a. Obtain treatment
   b. Complete all mandatory hospital forms (except Worker’s Comp)
   c. Keep copies for your records
   d. Complete the Surgical Technology Program’s Incident Report
   e. Complete Skyline’s Workers’ Compensation Form
   f. Submit all forms to the Program Instructor ASAP

If the Chancellor’s Office of the San Mateo Community College District accepts the Workers’ Compensation claim forms, a copy will be sent to the student. If not, the student is obligated to pay the fees for treatment rendered. The student is advised to keep these forms and any correspondence in a safe place for up to four (4) years. If the healthcare facility where treatment was obtained bills the student, he or she should submit a copy of the Workers’ Compensation forms to the hospital billing office. See Appendix E for a sample of the Incident Report.
COURSE DESCRIPTIONS

MEDA 415: LAW AND ETHICS FOR ALLIED HEALTH PROFESSIONALS

Legal relationships of physicians and patients, contractual agreements, professional liability, malpractice, medical practice acts, informed consent, and bio-ethical issues. Emphasis is placed on legal terms, professional attitudes, and the principles and basic concepts of ethics and laws involved in providing medical services for the allied health professional.

SURG 440: BASIC SCIENCES FOR SURGICAL TECHNOLOGY

Review of human anatomy for surgical procedures and common disease states requiring surgical intervention. The course also covers microbiology and operating room medications pertinent to the surgical technologist.

SURG 441: PATIENT CARE CONCEPTS

This course provides the student with a theoretical and practical understanding of the technology and practices used in caring for a patient undergoing a surgical procedure.

SURG 451: SURGICAL SKILLS LAB

During SURG 451, the student is expected to acquire and develop clinical skills at the level of a beginner. The student will receive a skills checklist (Appendix A). Every week, additional hours must be documented to practice skills. The skills must be demonstrated at an “acceptable” level to the instructor. The student is expected to practice these skills independently (without supervision) and in groups. The student will prepare for the final skills evaluation at the end of the semester. The final skills evaluation is cumulative and will be performed in a simulated mock surgery. This class is a mandatory requirement and the student must receive a grade of “pass” to progress to SURG 443: Clinical Practice.
Skyline College
Surgical Technology Program

SURG 442: SURGICAL SPECIALTIES

Covers the most common procedures and equipment utilized by the surgical technologist during specialty surgery. These surgeries include neurological, cardiac and pediatric procedures. Prepares the student for the national certification examination. This course is a series of lectures, demonstrations and online videos of the various surgical specialties. Course work includes study questions from the text and weekly quizzes. The Final Exam is 200 multiple-choice questions covering MEDA 415, SURG 440, 441, 442 and is graded by Scantron. The student must achieve a grade of 75% or better to pass the Surgical Technology Program.

SURG 443: CLINICAL PRACTICE FOR SURGICAL TECHNOLOGY

Most students will have one 8-week Clinical Rotation at each of two (2) different hospitals selected by the Instructor. The site selection will be based in part on proximity to the student’s home and the student’s compatibility with the O.R. environment. To pass this course, the student must 1) complete a minimum of 500 hours and, 2) achieve skills in surgical technology at the level of an Advance Beginner (See Final Evaluation, Appendix C). They must also achieve the Standard Level of Case Requirements (Appendix D).

The student is to be assigned to appropriate learning opportunities while in Clinical. A Preceptor must always be immediately available to scrub-in with the student. Sometimes, a Hospital may be short of O.R. staff and may ask the student to “fill-in”. A student may not be assigned in place of a trained employee. This policy is in place to protect the patient from harm, and the student and the hospital from legal liability.

SURG 443: Clinical Practice for Surgical Technology is graded as Credit/No Credit (pass/fail). If for any reason the student is not able to complete a clinical rotation, whether due to lack of proficiency in skills or unprofessional behaviors, or due to the Site-requested removal of the student from the Clinical Site, s/he will receive a No Credit (fail) for that class. To complete the program, the student MUST PASS SURG 443.
CLINICAL TRAINING (SURG 443): DOCUMENTATION

Prior to beginning Clinical Training, the student will receive the Clinical Handbook. The Handbook contains Clinical Objectives for every week to guide the student and his or her Preceptor in the training. The objectives are used by the Preceptor to evaluate the student’s weekly performance. These Weekly Clinical Evaluations are due every Wednesday. At the end of the First Rotation, the Preceptors will be asked to complete a Final Evaluation. (See Appendix B). The First Rotation Evaluation is graded to give feedback to the student and identify areas where the student needs improvement. The Final Clinical Evaluation is graded as Pass/Fail. To pass the Surgical Technologist Program, the student MUST satisfactorily meet the Clinical Objectives by receiving a Passing grade on the Final Clinical Evaluation (see Appendix C).

Documentation: Time Card

The hours that the student has spent in the Clinical Training must be verified by the Student Time Card. This is to be signed DAILY by the Charge Nurse or Nurse Manager. Each week, the student submits the Time Card along with the other required documents. (See below). To pass this course, the student must train for a minimum of 500 hours and remain in training until the completion of the Spring semester.

Documentation: Clinical Journal

During the First Clinical Rotation, the student is expected to submit a report of a surgical procedure for every day of training during the previous week. The report is to follow a specific format. It is submitted for review by the Instructor every Wednesday. These reports are used as a learning tool to record the Clinical experience and as an evaluation tool for the Instructor. In addition, this has been proven helpful in reducing stress when the student uses it to vent his/her feelings about Clinical. The contents of these reports are kept in strictest confidence. While the reports are only required for the First Clinical Rotation, the student is encouraged to keep documenting his/her experiences throughout both rotations.
Documentation: Surgical Case Tracking Log
The student is expected to document proficiency on a number of selected types of surgical procedures. The student will be given a disc with the Case Tracking program that allows the student to track these procedures. A summary is submitted to the Instructor at the end of the semester. (See Appendix D). To pass this course, the student must document a minimum of 125 of selected types of surgical procedures s/he is capable of performing independent of the Preceptor.

Documentation: Clinical Skills Checklist
The student is also expected to acquire a minimum number of selected skills. It is the student’s responsibility to seek out opportunities to learn these skills and document them on the Clinical Skills Checklist (See Sample in Appendix B). The Checklist will be collected at the close of each rotation and reviewed by the Instructor. To pass this course, the student must acquire the required minimum number of selected skills.

SURG 455: CERTIFICATION EXAM PREP COURSE
Preparation and review for the Certified Surgical Technologist (CST) examination offered by the National Board of Surgical Technology and Surgical Assisting.

Note: Please, make every effort to discuss your concerns during regular office hours (0800-1700). KEEP the phone numbers of the instructors handy in case of an emergency.

Alice’s cell phone number is for Emergencies ONLY!
APPENDIX A: SKILLS LAB FINAL EVALUATION

(SAMPLE PAGE)
NOTE: SURG 451 can only be taken with a grade of P/NP. To pass the class, the student must achieve a minimum grade of 75 points out of 100, or 75% on the final skills evaluation. A second and FINAL attempt will be given for students who do not meet the minimum grade. A grade of 74% or less on the second and final attempt will result in a grade of N/P for the course. This form is a sample and subject to change.

      ii. Assist w/ Vaginal Delivery
APPENDIX C: FINAL CLINICAL SKILLS EVALUATION
Evaluator: To pass this course, the student’s technical and professional skills must be at the level of an Advanced Beginner. This is defined as a professional capable of making choices and demonstrating independent practice more than 90% of the time on cases for which s/he has experience. S/he must be independent on at least 5 different surgical procedures covering a variety of surgical specialties. Thank you.

Criteria/Category

1. Student scrubs independently on at least 5 different procedures.  
   (Please list these procedures)

COMMENT:

6. On routine cases, student sets up Mayo stand and back table in an organized and efficient manner.

COMMENT:

7. Student demonstrates knowledge of instrumentation in at least four (4) surgical specialties.

COMMENT:

8. Student correctly identifies sutures and their appropriate usage.

COMMENT:

9. Student correctly identifies meds, their uses and actions.

COMMENT:

10. Student accurately labels meds; student provides info to surgeon, anesthesiologist & circulator re name and quantity of meds used.

COMMENT:

11. Student initiates sponge and sharps counts; student performs counts accurately and in a timely and efficient manner.

COMMENT:

12. Student demonstrates increasing speed in passing instruments and sutures in a safe manner.

COMMENT:

10. Student demonstrates increasing ability to anticipate surgeon’s needs.

COMMENT:

15. Student responds to constructive criticism professionally.
14. Student communicates with team members in an appropriate and effective manner.

APPENDIX D: SURGICAL CASE TRACKING LOG
INSTRUCTIONS ON USING YOUR CLINICAL CASE TRACKING LOG (Version 2.0 - 2007)

1. Welcome to the 2007 version of the Clinical Case Tracking Log (CCTL). This software has been updated from previous versions and should be compatible on most current Microsoft Windows® based operating systems. To get started, insert the CD-R disc into your computer’s CD drive. This will be the D-drive on most computers.

3. If the CD does not Run immediately, click the Start button and then click My Computer. You will now see an icon named DVD/CD-RW Drive (D:). Click this icon to Run the CD in your drive.

4. The MS-EXCEL© icon will appear, with the CCTL tag, on your desktop. You must now Save and re-name this file. To do so, click File on your Tool Bar and then click Save As. Re-name your file and move it to a File location of your choice. It may be very handy to just keep this file on your Desktop.

5. IMPORTANT: This program runs MS-EXCEL© in the background. Because there is no auto-save feature built into MS-EXEL©, YOU MUST SAVE YOUR DATA FREQUENTLY, or you may lose all or part of your work.

6. There are 19 weeks shown for each case activity. Check the dates and correct them as needed.

7. The Index of Cases was set up for you so that you can enter and track important course and personal data as needed.

8. The totals boxes will automatically tally as you enter your completed cases on each of the work sheets. The overall totals will automatically tally on the Program Totals for your overall case summaries.

9. When you have successfully copied the CCTL program to your computer, please return the CD to your professor.

10. You are now ready to get started and best of luck to you from the entire CCTL team.

A sample of the Final Summary of this Excel Spreadsheet is below. This program will be available on WebAccess or directly from the Instructor.
