Good Academic Standing (GAS) is defined as the percentage of participants served by the SSS project who met the performance level required to stay in good academic standing at the grantee institution.

Note: The Good Academic Standing Rate is calculated based on the greater of the number of participants funded to serve or the number of participants served minus any new summer participants served by the project that did not earn college credit. If applicable to your project, the Numbers of Participants Funded to Serve and the Number of Participants Served shown in the table below do not include the new summer participants that did not earn college credit.
